PREFACE	vii
MAIN INDEX	1
CORRESPONDENCE.	95
NEWS SUMMARY	155
REVIEWS	175

Preface

The Legon Observer was published from July 1966 until July 1974 when it ceased publication. (A special statement was issued as explanation of the cessation in October 1974.) During this period, the journal was the leading organ of social, economic and political commentary in Ghana.

In 1971, The Legon Society on National Affairs published an index to volume one. The present index covers the contents of volumes two to nine, and thus completes the indexing of all the issues of Legon Observer ever published. To ensure uniformity the arrangement of the earlier index has been followed as far as possible. More subject headings and form headings have been added, naturally, due to the volume of material handled in the current index. For a complete list of subject headings, see p. 1.

INFORMATION FOR USERS

The index is presented in four sections in one continuous paging. These are: the Main Index, Correspondence, News Summary, and Reviews.

1. Main Section

This first section is composed of all the serious articles, editorials and Observer Notebook entries appearing in the issues indexed. These articles are indexed by author, subject and title (where necessary) in one alphabetical sequence. Sample entries follow:

(a) DADSON, J. A. Strategy for economic recovery: The 1967/68 budget. II:17:13-15.

(b) ECONOMY

DADSON, J. A. Strategy for economic recovery. The 1967/68 budget. II:17:13-15.

(c) Strategy for economic recovery: The 1967/68 budget. J. A. Dadson. II:17:13-15.

Explanation

Full information with regard to author, title and reference is given under every entry.

Preface

Author's surname appears first (in capital letters) followed by initials of forenames or given names.

Title is given as on page cited and not as appears on cover page. All three entries (a), (b) and (c) are interfiled. Most articles, therefore, can be approached through author, subject or title, whichever is known by the user.

Reference (II:17:13-15)

The Roman numerals indicate the volume number; this is separated from the issue number (Arabic numerals) by a colon: The last set of figures separated by a dash (-) indicates the inclusive paging of the article in the Legon Observer.

The year of publication is omitted from the reference. It is hoped that users can easily correlate the volume number and the year of publication:-

Volume	I/1966
"	II/1967
"	III/1968
"	IV/1969
"	V/1970
"	VI/1971
"	VII/1972
"	VIII/1973
"	IX/1974

2. Correspondence

The second section gives an author and title alphabetical listing of all the letters that appeared in the issues indexed.

3. News Summary

This "selective historical record" is presented as an alphabetical title listing. Some titles had to be permuted to aid reference.

4. Reviews

This is an author, or title listing in alphabetical order of all the books, films, plays, etc., that were reviewed in the issues indexed.

ACKNOWLEDGMENTS

I wish to thank the Balme Library and its current Librarian, Mr. J. M. Walpole, for financial assistance and encouragement, and also the Africana Library Staff who contributed in no small measure to the work, especially Misses Margaret Vowotor and Vivian Aminarh, and also Mr. Nartey. Mr. Essandoh and Mr. Afrane who typed the work deserve mention and last, but not the least, Bob Dadson who helped in every way imaginable to produce this work. My mistakes, however, are wholly mine.

Preface

ABBREVIATIONS USED IN THE INDEX

(ON). Observer Notebook entry.

(Ed.) Editorial or leading article.

(jt. au.) Joint author.
