having died in which we were advised that the ship
on 10th Sept last had left Pida with 584 slaves:
after 27 days she was driven by storm into the night
on 6th Oct had gone to Cape Agulhas van der

that at the Court of Portugal they will give proper
attention to the representations of the President: but we
have ourselves considered it necessary to write to J^{ts} that
we have by instructions ordered Skipper Ross commanding
the ship Goodhue, who will be the bearer of this
to sail direct to Senia & to ^{intercept} ~~exchange~~ his ship
there & then to conspire with J^{ts} in what way he
can direct a cruise in order ⁱⁿ ~~to~~ with the least
inconvenient manner to do the most damage to Portuguese
that he, Skipper, shall be able to capture the Portuguese
ships which he shall encounter within the limits of the
Charter being then up to Senia: & after that cruise
J^{ts} will have to consider whether it is better to cruise
longer or take in a cargo of slaves for St. Antonio.

We have thought it necessary to advise J^{ts} of this
with orders that if any Port ships are ~~to~~ brought up

Letter from Anselm X to Peter Solkimer
of Guano Month 18 Sept 1726

It was very satisfactory to us to see how few
letters [dots with specifics] of his conduct gathered
about the increasing of the ports of St. Peter's Bay,
Proda, & Locuma; we are therefore in hopes that
the loss of time was exchanged therefor
at long desired profits. It will now be less
than that for each side of the mountains of
San Geronimo & his adherents for it will be
doubtless that he will on one or other opportunity
try to reassemble his forces.

what he thinks best & his establishment of a new

Reason for will see copy letter from our Honorable
 Council on behalf of this State to the Court
 of Portugal concerning inter alia some complaints from
 that Nation about some wrongdoings which it
 sustains have been done to it in Africa: that
 the King of Portugal had thereof resolved
 to get ready 4 warships to ~~make~~ cruise in Guinea
 & his own maintenance, we have considered
 we must care of the information, & soon & finally via England,
 thereof so that for care to be our guard & Hon Guard

 to prevent all damage & insults, which will
 be all the more necessary because it is in crisis state,

Letter from Assembly, X to Robert Lami for Sen
 of Guinea
 [CRC 56]

Recd. 28 October 1727

They have recd word of Assembly his letters
 both to him & to the Judicial Chamber of
 Amsterdam relating to the state of affairs
 on the Coast which has passed since Jot's
 direction upon which we have found it
 necessary to reply to Jot that we have been
 very displeas'd over the frictypheden
 which the Portuguese have done to our station
 against Company's ships We are meantime
 satisfied with the conduct of Versapex which
 Jot has ~~not~~ carried out about the
 construction of the ship Sen Galley also it
 did not have the desired success. It has
 also given us satisfaction that for so
 quickly reported the occurrence of the capture
 of the Guineese Galley, the expense of ship
 that stands over Guineese which we are
 the more pleas'd in the intention to complain
 about it to the Honorable Jot, in the letter

that the King of Port. will give of our satisfaction
to the King about it.

Inasmuch as the subject of the Portuguese, I have
such good opinion as the Orders that were given for of the
Pied de Haut. in our letter of 21 Aug. past ...
I recommend you particularly to maintain them. We
have however doubt to add to them also that as the
King has at present not only has no ledge of
Pied de Haut but entirely of separation with the Trade
the therefore need not in any way interpose
with the King of the Country, I shall use
your utmost endeavors to prevail ^{to} ~~the~~ Port:

ships being in the roads there & it can best
be done according to what I have to write you there.

...

If the Subfactor Michael Anthony Vieljeux should
since be detained by the Indians I shall let you
know & take care that he gets free again, you will
expect free report by first opportunity about his condition so
to equal the number accordingly.

Assembly of the X = 1726.

We have also seen, on reading the letter,
taken into con^{sid}er^{ation}, the considerations which for more
about the building of a fortification at Bossan
but we consider it would be sufficient, provisionally,
to erect a hedge there & to plant de flag of the
Co^{te} & one could always contain later on
whether de l'ode the use of sufficient importance
opposed to de Co^{te} de a fort upon table
built for its protection. Indeed the making
of de hedge & planting of de flag will give
right & title to de Co^{te} ~~to~~ i. e. a
sentence in their favour against all
Europeans who should attempt to cause any
hindrance to it, & to maintain themselves in it,
for the Co^{te} having a hedge there provisionally
will be able, with more precaution, to keep all
Europeans from there: & now they have not a yet

taken as prison at that place.

Herewith I send you copy of a Project handed
over to us by the former Sr. Gen. Peter Volckman
in order to erect a Colony near the Castle Hollandia
[This copy is not attached to the original letter in 933]
of the Co of Africa, which we send in for caution &
advice as soon as possible. We have without prejudice
that authorized the respective Charters that if Coy's
servants show themselves disposed to go thither with
their wives & children, to permit it to them
as we have also authorized de Pres Che Aust,
as occasion offers, to send some Soldiers with their
wives & children to Guinea & if these Soldiers
will come to arrive in that way, you will ^{consequently}
facilitate ~~the same~~ ^{them} places at Fort Hollandia &
their subsistence

Letter from ^{Pres} Chr Augst Sr Gen of Guinea at Guinea
[933] Augst. 14 February 1727

We have got information, through the Sr. Gen. of a letter
from President Hemming at Loisabon written about the
14th of last month, January, containing advice, ultra ali.

1727.

The three of the King of Castile, Spanish, are
 making suitable arrangements at the Court
 to obtain a ship of Defense in order to
 make a cruise along the Coast of Guinea
 under the command of Juan de Don Saint
 as far as to Bengala: that the same has
 already compensated some ^{other} affairs and
 among these some for the requisited ship
 Don Carlos belonging with Commerce Company
 at Middellburgh whereas we have doubt if
 they will advise for of this ~~matter~~: order
 that ^{the} ~~the~~ King take care that the King
 suffers no damage thro' that cruise, either
 to their ports or their ships to which we presume
 the above named Expedition is intended (forbidden)
 that for will warn contrary or the Coast take
 on their guard.

Letter from ^{Paris} Chamber Account to ^{the} King at Guinea
 Paris, 29 May 1727

Affairs between the Powers of Europe still stand
 in such a crisis that one holds the interslag of them

of peace or war entirely uncertain & such the ships coming
here ought to be on their guard & order not to be
verfloekt under this or that sign.

Letter from Pez Chr August to Robert Curzon Esq. of Sumatra
[1833]. August. 21st August 1727

On the 11th July last and unexpectedly at
Punicee Galle, ... by which we recd your letter of
11th April previous. From which we learn with
great regret the capture of a ship S "Graveland."

Shipper Adrian van de Parre we cannot understand
how a ship of such a "charter & contract" has not
been able to defend itself better & surrendered
without a blow or shot & it has also happened as
very much that shipper Jan Schamp did not
try to save the same & to load the goods to those
two Port: ships

As respects the orders, which you ask for in
your said letter, about the Portuguese nation,
we have thought it necessary to reply that
personally still your orders from the Assembly of
the Jb shall continue the trade of the
Portuguese who had verloten at Amboina & those

1724. there, as it has been done before, without molesting
 them; but all other Portuguese ships who do
 not ~~bring~~ come to the port shall try to
 attract attention & bring up, as customary,
 and particularly you shall cause all injury
 to such Port. ships which belong to the so-
 called Coys of Corisco & you shall employ all
 the naval force of the Coys to destroy the same;
 as about the same questions put on the subject,
 you shall act i.o.w. the letter from the Assembly of
I Oct. 27 December 1724 written to the former
 by Valkenier, copy of which goes herewith [u.o.w.]

Two Letters from Amundsen Æ in 1728.

Letter from Pers de August to his son Robert Quare in Guinea
[Manuscript: in W.C. 464] August 24 June 1728

Since we are informed that at this season are being fitted
out two formidable Ships, which as soon as they are
in readiness they would set sail for Guinea, so this
has again caused us some belly-aching, & makes us
fear that the Port Antonio will again become
partly ^{& with these ships} blockaded fract by confronting something against
the Ships or establishments of this Co^y, whereas we
were used for to be on your guard & gave the Co^y orders
that all the servants on all whole coast & sea & in shore
are firmly ordered obedient, as with surprise ...

At which Office we cannot omit to order you to
make inquiries whether at the Coast of Guinea there
are to be found any particular Conventions entered
into with that Co^y which had any relation to
navigating or commerce between the Subjects of that
Crown or the servants of this Co^y, there or the

 sufficiently competent by de memorandum &

 to us if something of that ~~the~~ nature could
 be found in order all the more totke able to
 convince die Botie of their unfounded
 stelling.

Letter from Pres Mr Bush to JG Robert Currie
 at Gwelo Augt. 21 September 1928

We have recd ... four letters of 14th April
 addressed to the Assembly of X & to us
 from which we have seen with regret the
 outstanding affairs with die Expil Motion
 on the Coast: about which die Camp
 by experience has always suffered damage,
 & which gave us occasion to admonish JG

proceeders to avoid them. We had also wished
to stop the method taken, no reprisals against the
victims but tried, with orders to advise them
to do no damage wrong to the Coy. which we
recommenced to the future.

As regards what happened about it, the
great business is being made by the African
Coy, complaining very much over the taking of
their ship named "Bonetta" of which we have as
yet obtained no advice, but which we must
conclude, from all the circumstances, is to be true; &
wherefore we have decided to come to instruct
the to settle the disputes with the English African
Coy amicably, & consequently to restore to their
agents the ship Bonetta with its loading, &

the confiscated cargo. to which refer is made in the
letter which was, rightly, confiscated. & for all
what further the will have taken of towards, provided
that also be handed over to you by the said Agents
all the they might have taken from the Coy.

We further recommend to the also to cause no

We have reported the Council Secretary of

The two ^{do} do found good on 8 Aug this year
to prolong the Charter of this Co^y for the period of
thirty years after expiration of the present Charter
& so to the year 1760 inclusive, & within the limits
mentioned in the said current Charter & of all
their points & Articles without exception in the said
Charter with this understanding viz that the
Voye deant of the Coast van Africa for the
Ordering of those lands be open to all order
holding of recognition under the conditions laid
in the regulation granted the same day

We have therefore intended it expedient to ask
of this report what points of mercerie might and be
"prohibited" with about the reduction of Rewards on the
Coast & on other subjects & also in what manner the Trade
of the Co^y can best be drawn in future viz what for this purpose
to be in your views & first apply.

We find on perusing your letters that you call
the ships, which are equipped from the country by
private navigators, Indulgent ships: as scots
croissants is paid the host felt by the same. For
which they are held for other ways is unfairly
with the Reputation of free navigation of
8 August 1930, whereas we recommend you

in a future to call them free Indulgent ships
because the name of Indulgent ships was previously
to such ships as used to be used for navigation in the pro-
hibited trade of Guinea of wholes of this
country contrary to the tenor of the Charter.

We have previously indicated what the
Port: reports in his letter of 18th Augt about the
Port Mositan ships who drive their trade
with the old private free ships. Alas the

de former have paid de 10% de Duesia, and
we understand quite well de injurious consequences
which could result thereon in the long and
strong authority of 18th to authorize all such
Port Brazilian ships which will be caught being
traded with as well: ships before the payment of
de 10%. & to confiscate them in the behalf
of the long: however that for previous wars
de Port ships don't in & interdici that unpermitted
trade without distinction of place whether windward
or leeward coast where that prohibited trade will
be done.

We have it entirely to your discretion in what
manner you see de 10% from de Brazilian

 on this subject by the late Sir Gen Peter Hugg

 perhaps have to see that letter over which letters
 how far his proper proposal can be put into
 execution, by which after you will please to
 consider whether the difficulties made by you
 will not be better surmounted by persuasion

We have read in the Assembly the letters from ^{received} H₂ both to us. Notre Présid: On Amst comité we have considered it very to write to H₂ the which we have, in our letter to you the comités, and with reference to the Portuguese Brazilian ships, to have our claim on the old proving the ward sooner than to come to the Chief Costa Elumia to pay de Teuta; we have however taken it into deliberation whether it would not conform to the will of the Com but the Chief Factor Herzog be authorized to grant passports to the ships leaving direct for St Elumia to St Elumia departing from the entire line and other places on the Coast:

- They think this would be of great advantage -
- It has pleased the Com to ask of you to ambassadors and from representatives on the subject of the invasion of the Coast of Africa permitting access to the Coast and to place them to the benefits of the Coast, the navigation and trade within the sixty miles as far as possible permitted to the Com.

We approve the proceedings and will take

- under art 5 of the Statute the Royal is
authorized to commence proceedings against delinquents

We must advise Pitt that it has come before
~~the~~ us that at the end of 1730 that 177
 slaves obtained in the Quinta war had been
 assigned between de l'Oré. San Praya: de Chief
 Factor Jacobo de la Plazas & Chief Factor
 San Everand Blettes d'Oré about into account
 & trade with Co.

That from the Praya, had stolen 30 slaves
 from de l'Oré Cabaner Arije bamanoe had then
 bought & the ship sent half to Guinea & afterwards
 transported to Surinam & the ship Jorge Daniel

We order you to enquire into this & if true
 to call ~~the~~ so Praya to account if this or not
 yet departed from Guinea

Seeing that thro' the free navigation of the
 Coast of Africa the trade of the Company will
 more be so considerable as hitherto ~~that~~ such
~~and~~ & therefore we shall not need so many
 servants on the Coast; we have therefore found
 good to fix the no of the Factors to six &
Six; Sub-factors at twelve; & Assistants at
eighteen.

We are further informed that at Lagos Accra
 & Hollandia little trade is driven, which being so,

we wish not they could be sufficiently occupied
with by an Art & 2 or 3 soldiers. We recommend
to be betrachtet de mesuagie in de Coz with all
your power: & if you should wish some
other facts are of little profit in de Coz than on
the Coast would be occupied by a Art & 2 or
3 soldiers you will inform us of it so that we can
avail ourselves of your advice.

Mien hem Assistent X to Frederik Willem Pauwson
Chief Factor at Amboina. Amsterdam 29. October 1734

We have desired that in the petition sent over
such a large quantity of goods is required.

We fear that, although the same could have been
acted at the time that the ^{exclusive} trade was
still unruined for the Coz within the reserved district,
that now by the placing open of the whole Coast
the trade of gold & Spices will very much
diminish for the Coz & that the Slave trade
is consequence will be the most considerable
for most ships & fishes will remain in our hands than
for that you can well be able to deliberate. & 20

We have further perceived with our much regret
 the reduction of the gold, fish trade which has
 continued in the Coz for some time. We recommend

 usual advantages & profits are certain profits

Letter from Ansell's X to the Rev. Jacob de Smet
 • Cavaliers of St. Louis Nov. 18 April 1743
 [WRC 54]

We have found good that the trade on the coast shall be continued 10.5. The outwards ^{imported} the letters from the Council of 30 April 1740 ^{provisionally} until our proceedings

But we find it very to add that a law appeared that the regulations of £20 for each slave traded by the servants shall be paid in reg to the city but many many frauds committed about it

We shall leave this in its place but have unless judged that the same is with above suspicion considering the small remittance from the first regulations during the time that the outwards has been in practice ...

We are excited for to advise us of the reasons of the small remittance state the precautions against fraud
 And if any servants found guilty of fraud

their trade have been reported with the aid of the
Procs ~~at~~ will, & the second inhabitant for the
service of the Coy

And as owing to the distance of the Ports &
Ladines, such Praves cannot be properly prevented
they are to consider & report whether it was the practice
& is the interest of the Coy that such Praves
be made at a certain no of Praves which
they will trade annually & to bring up
a proportionate sum annually to the Coy: & if so
what can best effecting ought to be amended at

We have found good to construct 2
frigates one to be completed by the 1st Inst. as soon
as possible the other by the 2nd Zealand war fleet, with
sailing frigates 80-90 feet long with ^{improved} masts & of 14-16

 Amos, 26 November 1964
 Wren J.P.T.

From your letter of 26 May last we have seen that J.H. with regard to the disputes with the Cape April; Colver Amosichio reports that "it is felt that the matter has been referred to Europe and no answer, as yet, would be a good opportunity to intensify the matter"

This appears true with indirect understanding for the reasons that we were aware that in case any disputes will arise with the English the Scott differential should remain in status & refer to the decision referred to left with decision of the respective Amosichio. It does have no reference whatsoever to the disputes between the P.J. & the colonies, thereby we will rather any the facilities to settle the arising disputes, or ... - Her first refer to Amos' previous letters regarding settlement of the disputes, whether from letter & presents by Amos by "Amosichio" to Amosichio —

inanner as is inserted hereafter, as follows: —

His wo Honor / We have received on the 30th ulto

... .. by which we should first inform
of Holms 1. especially let together is that the
provisional order sent by us according to our letter of
19th June 1771, with Ben Ben & Councils at
Elvina, has not been executed. 2. Not as the
order of the said ppty, sent that order to 50 lbs

all occasions of difficulties & disturbances.

We have deliver'd the info of Holms that the provisional order

the House, the Councils of I who have then met, by the 11/6/1771.
to the Honorable at Elvina of which intimation the Holms were
informed & this the 8th of 19th June

That we also got news of the Hon. B. Westman & Nicol
Subjard van Beeldael of 18/10/71, sent on 10/4/72 that they
had rec'd the said orders about 14 days before would punctually
obey & execute the same. That on the occasion when the
letter was read in our Assembly on 10 June 1772 have app'd

amounts on the Coast we shall deliver us to you all the
 Commodore with a view of the Coast.

In the first of them, being a school from a letter
 from David Keel Esq. Gov. of C.C.C. the 12 March 1772
 we find reported that a Decr: formerly a Holland
 frigate on the westward Coast had made itself master
 of a Port Spanish for us or reason that it had sold
 a roll Tobacco to the Capt of the frigate who had
 pretended to be an Englishman also visited the English
 flag on his ship & was to misleaden the Portuguese.

We think that the Decr: period give you of
 what happened between Capt Brooks commanding
 the Dutch frigate of war named "Dankloosheid"
 & a Port Spanish ship brought up by him to
 Elmina on 3 January 1772. where gentlemen
 is written between. Being of this opinion because
 no other similar occurrence is known to us
 being between between the information desired & also
 very carefully examined
 the proceedings taken about it. As has been it has
 not appeared to us yet is it is quite unknown
 to us whether the Dutch Capt represented himself
 as an Englishman & how visited the English flag
 or not.

But how the pps of the Success of the war, shall

also towards and a reflection, consisting in this, that
 the honor of the English nation on the coast is our opinion
 would be very ill served if he, as he seems to be
 inclined, came to afford protection to any Port;
 shops in such cases; as on the one side he would
 not be obliged to be unwell known in disputes between
 the Dutch and Portuguese, much less to protect the
 latter against the former.

And on the other hand side the way of justice, by
 means of appeal to the King is always stands free &
 open to the Portuguese others there can be no reasons
 to protect any one - who has been subjected to an
 lawful legal proceedings & to whom the way of appeal if
 he feels himself aggrieved always stands open - against
 his lawful judges, & *vis facti* to avoid our distress
 the privileges which belong to the King.

After this first step we came to the second assurance
 of the King's law his father being an exact translation from
 a letter he wrote to the English King's Committee
 of the Aff: on 24 March 1772, which
 like the former one makes not the least mention
 of any sort of violence done to any of the
 English nation much less that the least thing
 should have been committed or attempted by any one

of the servants of the W.C. in the Col Africa contrary to the
before mentioned order given to the King's servants in the Col G.
with pertinacity & good hearing of our Ambassadors: for the
revention of all difficulties with the English nation.

The articles of Verdago - of which mention is made
in the Annexures, & examining which the Gov^r
complains he has begun with Capt Collingwood (writing)
entered into corresp: with Capt Collingwood & the
Gov^r & Councilors of Illinois - but not the least
relation with the last approved order, despatched on
11th June 1771, which are, on the contrary, articles
of Verdago which, as they are named by the said
letter, were concluded with their predecessors
about the Port: Trade, as it appears then already
some time previously transmitted to him by the
Committee of the English Afr: Coy

And doth we rightly understand that ten
dozen given quarter is good quarter over the ^{unmistakably}
mentioned quarter last germane order, will
appear here the following Annexures of the Memo
to which we now have the honour to have committed
our information to the

of the manifold business of this Assembly, not unknown to

We therefore request that Y^r Hon. may be favourably

The Report of H^{on}ble. Councils with de leur leurs Resolutions

whereupon de deliberated & found good to write to the
H^{on} & Council in de C of G. :-

That Rep: Thur have been with respect to the

That altho Rep: Thur have not yet seen all the

from the reports of the Comandant Thuerins & Pascal,
about the conduct of the former: & it has appeared
to the Com. & his.

That Comandant Thuerins was far from being as culpable
as the Pascal & garrigue members have said:
on the contrary, he acted very sensibly: bringing in,
before coming to Scotland, bringing with notice
of the Bd. the difficulties by him experienced &
awaiting his fair orders.

That if the two Gen Comandants had understood
that the English Capt. must not be to them sent,
but do affect in the first instance other free
returned with force, other do fear on the Comandant
orders was enforced. The ^{2d} was his duty
to give orders to the effect that the Comandant
with effect must be to the other the English Capt.

That the Pascal in his capacity as acting
President (and which arrangement he & his
were not now express themselves) together with the
garrigue members, by the payment of the
demanded £200 thinking have done from
that by way of opinion that the reasons put
before the Bd. by Comandant Thuerins were
very well founded.

That several Rep. Officers do with wisdom approve the letter
written by the Command. Thuring to the English Captain on
18th March last yet they do with various reasons
wonder of being accused of cowardice & of punishment
since his ~~own~~ intention appears only to have been
to advise the English Captain that he was not
in a state by means of his force, to compel the soldiers
to restitution of the stolen property, without thereby
wishing to inform him that his force was too weak
to offer resistance to the English warships in case
of attack.

That Rep. Officers unjustly charged the Command.
Thuring was refused permission to go home, in
pursuance of the liberty accorded by Rep. Officers
the clearest instructions demand to the B. of Cornwallis

That as regards the conduct of Command.
Wentworth Rep. Officers: this lack of the relative
proofs are with few in a position to judge it; but
desire still that no proceedings be taken against
him about it until further orders.

That Rep. Officers are surprised that as soon
as our Gov. obtained information from Command.
Thuring of the conduct of the English Captain,
he has then had with it once advised himself.

 i.e. w. many times given instructions they for the

I will be satisfactory to Rep & his allies that he

who was useful to the King's interests of what he has
served many others.

Wherefore also it is earnestly recommended to the

Since G's departure from here to Pavia we have
seen various letters both from G's above & his wife & the
Cancellors at 16 Jan. 1 Mar. 9. 10 April, 16
July, 13 Sept 1781.

We have learnt with regret from these in what a
bad situation you found de Co's establishments in
de Coast & General on your arrival & de wantonness
that have plodded about there for some time past
among the Co's servants, high & low.

We have but for well bloody, & w^o your
intention, have begun & much & possible to
remedy this & proceed with it eventually
so that the total ruin of de Co's persons
which must necessarily soon follow if not such
disorders are prevented in time.

There are very many that doubt the change
occurred in de English Court on de Coast,
de present arrangements that you besought with de

enemy ship assisted only by a small sloop.

Altho it be not ordinary expenditures must be
 made in the Coy's Chest for the purpose, which in
 these times of time is left entirely to your

The friendship of the Indians is especially of much

commences as follows :-

"From J^{ts} letter of 15 November last year
concerning the Act of Zealand, we have learnt the
reasons why, for want of opinion both the
Slave Trade for coast of the C^{ty}, & the acquisition of
Cargoes on coast de Indes west side sold on coast
of the C^{ty} west of Africa, was entirely
incompatible with & could not exist with
the present situation of affairs on the Coast: whereas
we also, in our Assembly, have approved only
2 Slave Ships bound destined to Elmina &

in the coming spring & the 2nd in the following
August shall afterwards arrive J^{ts} care &
orders so as to affairs of the Coast, about
the time you will charge to the ~~our~~ profit
of the C^{ty}.

Since as our own de Parcel is prepared a
certain plan with some alterations in what manner
the Trade in Slaves could be done with greater
profit to the C^{ty} than hitherto consists in following:-

[

- 1st all acts of cruel women should cease, must be for each of B's, small rate w^{ch} of the servants looking upwards in the Court.
- 2nd Also for their acts should be the act of maintaining the slaves in their Courts

 - ditto boy " $\frac{2}{3}$ 80

And that over this of B's, should be permitted to admit for such unbandel'd, & also to require for a cargo of 400 slaves such cargo should be appraised: -

125	" women " f80	10000
<u>50</u>	" japers - $\frac{2}{3}$ f80	<u>4000</u>
