Lome, December, 1994

projects in Member States, the budgets of the Secretariat and the Fund for 1995 and ways of restructuring and revitalising these Institutions.

4. The Togolese minister also appealed to the sense of responsibility of Council members to ensure that arrears of contributions due to the institutions of the Community are paid within the time-frame stipulated by the Authority of Heads of State and Government at its last session held in Abuja in August 1994.

5. The Chairman of Council, Dr. Kwesi Botchwey, Minister of Finance and Economic Planning of the Republic of Ghana welcomed all participants to the thirty-sixth session of Council. He stated that this session would be called upon to approve the 1995 work programmes and budgets of the institutions of the Community. It was imperative, he continued, given the financial constraints facing most Member States, to scale down expenditure and rationalise programmes which should be executed more effectively.

6. Dr. Botchwey stressed the need for ECOWAS Member States to strengthen the regional integration process embarked upon nearly two decades ago. The Chairman also reiterated that economic policies and programmes must be harmonised if the negative tendencies in West African economies were to be corrected. ECOWAS, he said, offered the best framework for concerted action to promote development in West Africa. Dr. Botchwey also alluded to the precarious financial situation of the Community institutions and requested members of Council to settle their arrears of contributions promptly.

7. The Chairman of Council hailed the reopening of the border between Togo and Ghana, one of the most important links in the West African highway network. He however expressed regret at the insignificant progress made towards the restoration of peace to Liberia despite the considerable efforts made by the Chairman of the Authority of Heads of State and Government, His Excellency

President Jerry John RAWLINGS, President of the Republic of Ghana. Dr. Botchwey assured Council that further initiatives were being made to bring peace to that country.

8. He enjoined Member States to support the efforts being deployed by the Secretariat and the Fund management to mobilise external financial assistance to augment Member States' contributions to financing the activities of the Institutions.

II. ELECTION OF BUREAU

9. The bureau was elected as follows :

Chairman : Republic of Ghana

Rapporteurs : Republic of Mali

12. Any other matters
13. Adoption of the Report.

IV. OUTCOME OF DELIBERATIONS

Item 4 : Consideration of the interim report of the Executive Secretary

11. The Executive Secretary, Mr. Edouard Benjamin, presented his interim report on the running of the Community for the period spanning **July** to November 1994. The report examined the level of

implementation of the 1994 work programmes, analysed the difficulties encountered and also outlined projects for 1995.

12. The Executive Secretary made particular mention of the immense contribution made by the Chairman of the Authority of Heads of State and Government, His Excellency Flt.- Lt. Jerry John Rawlings, President of the Republic of Ghana towards increasing regional cooperation and integration in West Africa.

13. Reviewing the economic situation in the region, the Executive Secretary enumerated the problems which have a negative impact on economic growth and development in ECOWAS Member States. Prominent among these factors, he said, are the internal and external imbalances and high population growth rate in the region. The Executive Secretary stressed that, in order to overcome these difficulties and hope for brighter development prospects, there was need for Member States to improve upon national structural adjustment programmes, reflect the regional dimension in their development programmes, and undertake measures to reduce the population growth rate.

14. The Executive Secretary noted, in connection with the execution of the Community work programme, that many activities planned for the current year had had to be suspended or cancelled due to financial constraints. Up until the end of November, for example, only a third of contributions towards the financing of the Secretariat's approved budget had been paid. One result of this situation, he added, was that the external partners of West Africa were increasingly reluctant to grant assistance to an organisation whose members did not seem willing to implement their own regional programmes.

15. With regard to the 1995 work programme, the Executive Secretary stated that the main activities envisaged focused on the new minimum agenda to facilitate free movement of persons, development of the information sector so as to involve our peoples

in the life of our organisation, and harmonisation of the economic and financial policies of Member states.

16. The Executive Secretary concluded with a plea to Council members to lend their support to the Community Institutions. By paying their contributions to the budgets of the Institutions, Member States would be giving a positive indication of their determination to correct the situation which, if allowed to continue, would jeopardise the Community's aspirations.

17. Council congratulated the Executive Secretary on his brilliant report and made a number of observations and recommendations thereon.

18. Council called on the Executive Secretariat to support actions adopted at the regional African Conference on Women held in Dakar in preparation for the 1995 Beijing Conference. It was stressed, however, that such intervention from the Secretariat should not entail any financial outlay, considering the precarious financial situation of the institution.

19. The population issue was recognised by Council to be at the heart of issues germane to the development of ECOWAS Member States. The adoption of a collective strategy was therefore an imperative step towards relieving the pressure being put on the limited resources of West African countries by the rapid population growth. Council agreed that an effective regional population policy would remove some of the factors impeding the region's economic development. Council, therefore, charged the Secretariat to study the issue in extensive detail.

20. Council commended the actions undertaken by the Executive Secretariat to implement the decisions of the Heads of State and Government regarding harmonisation of the economic and financial policies of Member States. It was necessary, in this regard, to

~~convergence~~ of such policies in the shortest possible time.

21. Council took due note of the declaration made by the Honourable Minister of Planning of the Federal Republic of Nigeria to the effect that the Nigerian authorities would provide one hundred housing units for staff accommodation, until the Secretariat is able to build its own quarters. The Executive Secretariat was therefore directed to initiate appropriate action to transfer the Secretariat in Lagos to Abuja before the July 1995 statutory meetings. All departments in the Secretariat should move at the same time, in a properly coordinated manner. The Executive Secretariat was directed to contact the Chairman of Council to discuss appropriate solutions to any problems which might prevent the Secretariat from complying with this decision.

22. Council took note of the interim report of the Executive Secretary.

Item 5 : Consideration of the Report of the Administration and Finance Commission

23. The Chairman of the Commission presented the above report which dealt with a number of issues including ways of strengthening financial management as well as the adoption of a budget for the Executive Secretariat. Council, having deliberated thereon, adopted the report, subject to the observations and recommendations on the items below :

i) Report of the Financial Controller

24. Council directed the Executive Secretariat to maintain the current practice of deducting from staff salaries, any accountable imprests which were not promptly regularised.

25. The Secretariat was directed to demand reimbursement from Consolidated Brokers (Nig.) of the amount of 22,098 dollars paid to that company as insurance premium for the Abuja headquarters, as well as the interest accruing on the amount.

26. Council directed the Executive Secretariat to respect and to apply strictly, all provisions of the Financial Regulations and Manual of Accounting Procedures.

ii) Report of the External Auditor

27. Council approved the audited accounts of the Executive Secretariat for the year ended 31 December, 1993.

iii) Budget of the Executive Secretariat

28. Council adopted the budget of the Executive Secretariat for fiscal year 1995, balanced in income and expenditure at UA 6,546,900.

29. Council expressed concern at the precarious financial situation of the Executive Secretariat and urged Member States to respect the schedule for the payment of arrears of contributions agreed with the Executive Secretariat, in compliance with the resolution passed by the Authority of Heads of State and Government at its August 1994 meeting held in Abuja.

30. On the issue of quota posts, Council urged Member States to pay up their contributions so that vacant quota posts can be filled without delay.

31. Council directed that, in the event that credits provided for the Financial Controller's missions proved insufficient, on account of his having to undertake very essential missions, the Executive Secretariat could draw upon the contingency provision in the budget.

Item 6 : Report of the Board of Directors

32. The Council of Ministers took note of the report of the thirty-second session of the Board of Directors of the ECOWAS Fund and made the following observations :

i) 1995 Operating Budget of the Fund

33. The operating budget of the FUND adopted by the Board of Directors amounted to UA 3,391,000 in income and UA 4,114,500 in expenditure, leaving a deficit of UA 723,500.

34. After a lengthy discussion, Council took note of the Board of Directors' decision to finance the deficit from the capital as an exceptional measure. However, Council agreed with the Board of Directors that the previous practice of draining the capital of the fund for deficit financing should cease. The solution to this problem should be a substantial increase in the Fund's liquid resources. In this connection, Council decided to set up a Committee composed of the Chairman of Council, the Executive Secretary and the Managing Director to undertake missions in January and latest February, 1995 to the Member States in default of loan servicing in order to recover the arrears.

35. No provision having been included in the Fund's budget for the mission expenses of the Chairman and Managing Director, the Chairman of Council offered to have these expenses borne by the Republic of Ghana. Council expressed its appreciation to the Chairman for this offer.

36. Council in addition underscored the need for a rapid replenishment of the Fund's capital.

37. With regard to the approval of the Annual Accounts, Council decided that it was not necessary to include in the report the

balance sheet figures concerning ECOWAS FUND and the Special Fund for Telecommunications.

ii) **The ECOWAS Fund Headquarters Construction Project/Report on Defects and the Finishing Cost**

38. Council noted that the matter of determining the responsibility of each party concerned was taking too long to resolve. The Fund Management was therefore mandated to pursue the matter in court.

(iii) **Equity participation of ECOWAS Fund in the Regional Guarantee Fund for Private Investments in West Africa**

39. Council found ECOWAS Fund's participation in the capital of the Guarantee Fund desirable, up to a level of 5 million French francs. The Nigerian delegation expressed reservations on this issue on the grounds that the participation of the Fund in the scheme at this point in time given its precarious financial situation, would further jeopardise the institution's viability.

(iv) **Impact of the devaluation of the CFA franc on the arrears owed by Member States in respect of contributions towards the Construction of the two Headquarters Buildings**

40. In order to strengthen the financial position of ECOWAS Fund, Council agreed on the principle that Member States' arrears of contributions towards the construction of the two headquarters buildings which were formerly expressed in CFA francs should be denominated in Units of Account.

Item 7 : Consideration of the Report on the relationship of the ECOWAS Fund with ECOBANK Transnational Inc. (ETI)

41. In his presentation, the Managing Director reviewed the relations between the FUND and ETI and recalled the earlier directives of Council concerning :

- the FUND's status vis-à-vis the founders' shares, as well as the number of seats allocated to the Institution on the Board of Directors of ETI;
- the allocation of ordinary shares to the FUND instead of preference shares;
- the cancellation of special privileges attached to founders' shares.

42. The Managing Director informed Council about the results of his recent contacts with the top executives of ETI. These results indicated that there was the need to pursue the actions geared towards the fulfilment of the FUND's conditions attached to its investment.

43. Following discussions, Council directed that the Management of the FUND should continue its efforts to get the ordinary shares allocated to the FUND transformed into founders' shares in conformity with the agreement between ETI and ECOWAS Fund (viz. letter from the Managing Director of ETI to the FUND dated 21 December 1986).

44. Council noted that the extensive privileges accorded founders' shares did not encourage the participation of other shareholders in the capital of ETI.

Item 8 : Consideration of the Report on the Enhancement of the Fund's Financial Resources

45. The Chairman of the Ad Hoc Ministerial Committee on the Enhancement of the Financial Resources of the FUND presented the report of the fourth meeting of the above Committee held on 22 and 23 September 1994 in Lome.

46. In the report presented, the Committee recommended to Council:

- i) that in order to improve the FUND's financial position, the FUND's contribution of UA 11,983,130 to the cost of construction of the Executive Secretariat's headquarters building in Abuja should be considered as a long-term concessionary loan granted to the Executive Secretariat;
- ii) that, within the framework of the measures designed to pave the way for the enhancement of the financial resources of the FUND, the amount of the project budget should be fixed at UA 500,000 and considered as establishment costs to be financed from the FUND's capital.

47. With regard to the first issue, Council approved the principle that this amount should be considered as a long-term loan granted to the Executive Secretariat. Council directed the Administration and Finance Commission to work out during its next session in June-July 1995, the terms and conditions of this loan as well as the apportionment of this amount among Member States. The outcome of these deliberations should be communicated to the Authority of Heads of State and Government through Council for a decision to be taken.

48. With regard to the restructuring study to be undertaken, Council endorsed the exercise and instructed the Ad Hoc Ministerial Committee to explore all the possibilities of financing the project

from sources other than the Fund's capital. The exercise should involve a comprehensive study based on the terms of reference drawn up with the help of the African Development Bank (ADB). This report should be forwarded to Member States early enough to enable them examine it before the next statutory meetings.

49. In view of the foregoing, Council mandated the Fund to continue exploring with the African Development Bank, the possibility of financing the restructuring study from the ADF line of credit.

Item 9 : Consideration of the Reports of Technical Commissions

i) Trade, Customs, Immigration, Money and Payments

50. Following presentation of the report of the Commission which dealt with the issues including proposals of new products for approval and the compensation budget for loss of revenue in 1995, Council made some observations and recommendations.

51. Council deplored the continued existence of non-tariff barriers in some Member States. All countries were requested to take appropriate legislative and regulatory measures to ensure effective implementation of acts and decisions on free movement of persons and goods.

52. The report was adopted by Council which also approved the draft compensation budget for loss of revenue in 1995. Contributions to be called up towards the 1995 compensation budget amount to sixteen million eight hundred and eighty seven thousand, five hundred units of account (UA 16,887,500) in respect of sixty-one new approved products.

53. Council further reiterated the need to provide the Executive

Secretariat with figures for actual exports of approved products to enable it draw up a realistic compensation budget.

54. Council stressed that there was a pressing need to introduce the Community levy to finance the budgets of the Community.

ii) Transport, Communications and Energy Commission

55. Council adopted the report of the above commission and the recommendations contained therein, pertaining to the improvement of telecommunications facilities, telecommunications tariffs and strategies for the implementation of the Community's telecommunications policy.

iii) Social and Cultural Affairs Commission

56. Council adopted the report of the Social and Cultural Affairs Commission, following its presentation. The report contained proposals on the promotion of cultural industries, ECOWAS information programme, and the request for an observer status by the West African Journalists Association (WAJA). Council also adopted the recommendations contained therein, subject to the following observations :

57. On the issue of promoting cultural industries, Council directed that the Executive Secretariat should limit its role to promoting them and encouraging the private sector to establish companies for the production and distribution of cultural goods. Council reminded the Executive Secretariat that it should not involve itself in any commercial activities.

58. The item relating to the setting up of a National Press Fund within the information priority programme of action was amended by Council to read : "Member States may establish a national Press fund on regional integration to improve and extend coverage of activities related to regional integration".

59. The reservation entered by the Islamic Republic of Mauritania regarding the grant of observer status to the West African Journalists Association was withdrawn. Council therefore proposed to the Authority to grant observer status within the institutions of the Community to the West African Journalists Association (WAJA).

Item 10 : Consideration of the Report on the Meeting of Officials of Member States and IGOs on the Rationalisation of West African IGOs

60. The Chairman of the meeting presented this report which dealt mainly with the consideration of the study carried out by the Institute for Economic Development and Planning (IDEP) on the rationalisation of West African IGOs.

61. Council adopted the action plan and time-frame for the rationalisation of West African IGOs which is attached to the decision relating to this matter.

62. With regard to the role of the project unit to be set up within the Executive Secretariat, Council decided that the unit would be responsible for formulating an operational follow-up programme, and monitoring tasks assigned to the Secretariat in the Action Plan. The unit would also formulate a project document for possible external assistance.

Item 11 : Consideration of the Minimum Agenda for Action 1995

63. Following a debate on the memorandum presented by the Executive Secretariat, Council adopted the Minimum Agenda for Action which seeks to achieve in 1995, facilitation of free movement of citizens within the Community. The Executive Secretariat was however directed to prepare an additional programme which should incorporate observations made by the different delegations with regard to free movement of goods and establishment

of monitoring committees. This should be presented to Council at its next session.

64. The Secretary-General of the ECOWAS Brown Card Insurance Scheme informed Council about the problem created by the introduction of the CIMA Card in countries within the franc zone. He also mentioned the need to harmonise payment of claims in the different ECOWAS countries. Council directed the Executive Secretariat and the head of the ECOWAS Brown Card scheme to liaise with the relevant authorities in Member States to find appropriate solutions to these problems.

Item 12 : Other Matters

65. Consultations were held between the Chairman of Council, the Executive Secretary and the representatives of Côte d'Ivoire, Mauritania and Nigeria to find a solution to the issue of West African representation on the Executive Council of the Global Environmental Facility. In order to finalise the matter, Council was informed that the consultations would continue in Accra at a date to be fixed by the Chairman of Council.

66. Council requested Member States to make known to the Executive Secretariat whether the Delegate of the European Union is accorded ambassadorial status in their countries. The Executive Secretariat would communicate this information to other Member States. Council recommended that Member States should adopt a common approach on this issue.

67. Council was informed that the Republic of Sierra Leone had written to inform the Executive Secretariat about a ship conveying contaminated food which that Member State had turned back, and to urge Member States to exercise vigilance to ensure that these products were not consumed in West African countries. Council requested the Executive Secretariat to send copies of the said letter to all Member States.

Item 13 : Adoption of Report

68. This report was adopted.

(V) CLOSING SESSION:

69. In a closing Statement made on behalf of the Chairman of Council, the Deputy Minister of Finance and Economic Planning of the Republic of Ghana, Mr. Victor SERLOMEY expressed satisfaction with the content of the 1995 Community Work Programme adopted by Council. He thanked all members of Council for their keen participation in the deliberations. Mr. Selormey remarked however, that the low level of financial contributions to the Community Institutions in recent years had constrained the operations of the Community's institutions.

70. The Minister, therefore, appealed to all Member States to endeavour to meet their various financial obligations to the Community, so that the institutions would be able to function smoothly. He also urged the Member States to ensure the effective implementation of Community Acts and Decisions, and singled out for emphasis the 1995 Minimum Agenda for Action which Council adopted to accelerate the programme for the free movement of persons and goods.

THIRTY-SIXTH SESSION OF THE COUNCIL OF MINISTERS

LOME, 15 - 17 DECEMBER, 1994

**DECISION C/DEC. 9/12/94 ADOPTING AN ECOWAS PRIORITY PROGRAMME OF
ACTION ON INFORMATION**

THE COUNCIL OF MINISTERS,

MINDFUL of Article 6 of the ECOWAS Treaty establishing the Council of Ministers and defining its composition and functions;

MINDFUL of Decision C/DEC.1/5/90 relating to the formulation and implementation of an ECOWAS information policy and programme;

CONSIDERING that the ECOWAS Information Programme and other approved policies relating to information have remained largely unimplemented by Member States;

NOTING that one of the major obstacles to ECOWAS integration efforts is the lack of knowledge of the grassroots population of Member States of ECOWAS Programmes, activities and objectives;

CONVINCED that the implementation of a programme of action to promote ECOWAS would increase awareness and encourage involvement of the grassroot communities, media practitioners, professional associations and Non-governmental Associations in the Community integration process;

ON THE RECOMMENDATION of the sixth meeting of the Social and Cultural Affairs Commission held in Lagos from 8 to 10 November, 1994;

D E C I D E S

Article 1

The ECOWAS Priority Programme of Action on information attached to this Decision is hereby adopted.

Article 2

1. Each Member State shall submit a yearly report, through the Executive Secretary, to the session of Council preceding the Summit of Heads of State and Government, indicating the action taken at national level to give effect to this Decision.

2. The Executive Secretariat shall also submit a report on action taken at Community level to give effect to this Decision.

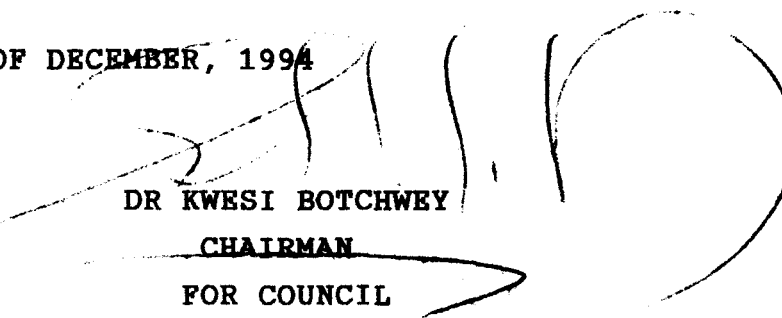

Article 3

The Executive Secretariat shall monitor the implementation of this Decision and shall, where necessary, assist Member States in its implementation.

Article 4

This Decision shall enter into force upon signature and shall be published in the Official Journal of the Community and in the National Gazette of each Member State.

DONE AT LOME, THIS 17 DAY OF DECEMBER, 1994

DR KWESI BOTCHWEY

CHAIRMAN

FOR COUNCIL

ECONOMIC COMMUNITY OF WEST AFRICAN STATES

PRIORITY PROGRAMME OF ACTION ON INFORMATION

The following Programme of Action is largely derived from Decision C/DEC.1/5/90 relating to the formulation and implementation of an ECOWAS Information Policy and Programme.

The activities and measures set out in Decision C/DEC.1/5/90 were further expanded with additional recommendations from the Conference of Ministers of Information and media experts on Information, Communication and African Integration held in Dakar, Senegal from 4 to 6 November, 1991.

On the recommendation of the Social and Cultural Affairs Commission which met in Lagos from 8 to 10 November, 1994, Council hereby calls on Member States and various concerned groups, especially media practitioners, at all levels, to mobilize for an effective implementation of the following activities and measures aimed at promoting the West African integration process through national and official languages, images and symbols.

At the National Level

- national and private radio and television stations devote, at least on a monthly basis, a programme entitled ECOWAS TIME which will seek to popularize and promote ECOWAS objectives and the West African community;
- national and private radio and television stations should encourage co-production and exchange of programmes aimed at fostering regional integration;

- national and private newspapers and magazines should devote, at least on a bi-monthly basis, a special page on news and reports on **ECOWAS TODAY**. This page which will be a forum on ECOWAS, its programmes and its Member States will encourage adequate monitoring and promotion of the West African regional integration process;
- national and private newspapers co-produce and exchange feature articles on the many facets of the West African realities;
- West African national news agencies and PANA increase their coverage of the political and socio-economic realities of West Africa;
- national ECOWAS experts and leading national personalities in the various socio-economic fields (trade unions, universities, sports, religion, women and youths, etc) should be closely associated with media houses' efforts to promote ECOWAS goals and programmes;
- Member States may establish a **NATIONAL MEDIA FUND ON REGIONAL INTEGRATION** to improve and increase reporting on the West African regional integration process;
- Member States should establish within an appropriate national structure an ECOWAS Information Centre (ECOWAS INFO-CENTRE) for the collection and distribution of information on and about ECOWAS;

- WAJA, PANA, URTNA, WANAD, CIERRO and national media institutions in collaboration with ECOWAS Information Department, should accord greater priority to the dissemination of information and public enlightenment on the ECOWAS region throughout and beyond West Africa;
- designated ECOWAS correspondents should be given the necessary assistance to perform their duties;
- the ECOWAS flag be displayed alongside the national flags of Member States in any appropriate location, especially in the offices of the Heads of State, the Minister responsible for ECOWAS Affairs and the Minister of Foreign Affairs and public buildings. This would be a symbol of commitment to ECOWAS;
- during the week of the anniversary of the founding of ECOWAS, ECOWAS Day be celebrated in each Member State in the form of:
 - a broadcast of a message on the state of the Community from the Executive Secretary;
 - seminars and conferences, round-table discussions on radio and TV, newspaper feature articles on ECOWAS objectives, activities and on Member States;
 - designing, printing and sale of commemorative postage stamps depicting images of Community ideals;
- cultural, musical and film shows on the realities of our Community and its Member States;

foster cordial and fraternal relationships between our peoples, particularly the youth population;

- promotion of good sportsmanship shall be promoted by each Member State at all times;
- quizzes, essays and song competitions, debates on ECOWAS and its Member States, student programmes in order to inculcate the Community spirit among youths and school children;
- adoption and strengthening of the teaching of ECOWAS in the curricula of educational institutions including mass literacy programmes;
- posters, stickers, billboards, jingles and slogans about ECOWAS and its activities;
- rallies, mobilisation campaigns and formation of national and regional socio-professional associations that would pursue programmes aimed at promoting their own interests within an Integrated Community;
- any other form a Member State may consider befitting.

At the Community level, the ECOWAS Executive Secretariat will undertake

- to convene a meeting of media experts followed by a conference of Ministers of Information to consider and recommend for adoption a Declaration of Principles on the practice of journalism, including Principles of Pluralism, the protection of the profession and the role of

media practitioners in the West African regional integration process;

- to establish a **REGIONAL MEDIA TRUST FUND** to encourage reporting and broadcasting regional integration matters within the Community during and after the 1995 ECOWAS YEAR, and to develop co-production and programme exchange schemes, training, exchange of information on technical matters, etc...
- to institute an **ECOWAS PRESS CARD** that would be issued to competent and qualified journalists selected in each Member State by the Ministry of Information, the West African Journalists Association or any other recognised national media organisation;
- to organise an Annual **REGIONAL FORUM** which will bring together regional and international opinion leaders, journalists, development experts, business community, professional associations, etc, to debate on issues of interest to the Community for the promotion and development of the West African region;
- to institute and organise a meritorious award to be known as **THE ECOWAS ORDER OF MERIT** to ordinary West African citizens who have distinguished themselves in various fields and have made outstanding contributions to the development of the ECOWAS region. Subsequently, such prominent West African citizens shall be appointed **ECOWAS GOODWILL AMBASSADORS** who will further the cause of integration both within and outside the Community.

- to launch a competition for the creation of an ECOWAS Anthem to be broadcast on all significant occasions or activities touching on the life of ECOWAS or of its Member States.

RECOGNISING the need for ECOWAS to adopt a uniform tariff structure for telecommunications services between Member States;

CONSIDERING Resolution C/RES. 5/12/94 of the Council of Ministers adopted at its thirty-sixth session held in Lome from 15 to 17 December, 1994;

REQUESTS Member States to fix maximum tariffs for intra-Community telephone services as follows:

- 5 gold francs per unit for immediate neighbourhood service involving adjacent networks with direct terrestrial links;
- 7 gold francs per unit for simple neighbourhood service in which direct link is possible using transit facilities

provided by another national administration in the sub-region;

- 8 gold francs per unit for distant services (direct or transit);

REQUESTS, further, that Member States agree to lower tariffs in bilateral arrangements between them.
