Item 2 : The Executive Secretary's Report

9. The Executive Secretary presented his last report to Council before the expiration of his term of office on 31 December 1988.
10. In its broad outlines, the report highlighted the latest developments in the economic situation of the sub-region and focused attention on progress made in the implementation of Community programmes since the last session of Council in June 1988. It also contained the Executive Secretariat's Work Programmes for 1989.
11. Council took note of the Executive Secretary's report and commended him on the quality of the document.

12. Council, however, requested the Executive Secretary to complete his report by preparing an end of service report to be submitted to his successor, including a record of activities undertaken by the Community during his tenure of office as well as his vision of the future prospects of the Community.

13. The Executive Secretary acknowledged the validity of these observations and informed Council that he was in fact in the process of preparing detailed handing over notes which would cover all the comments and observations made by Council.

14. With regard to the implementation of Community programmes, Council requested the Executive Secretariat to convene, before the end of the year, the meeting scheduled to be held between Benin and Togo to determine the meeting point in respect of the road linking the Ghana border -Noepe - and the Benin border.

Item 3 : Reports of Technical Commissions

(i) The Administration and Finance Commission Report

15. After the presentation of the report, Council adopted the **report** and endorsed the recommendations of the Administration and Finance Commission subject to the following observations on the items hereunder:

16. With regard to the Commission's report on the payment of allowances for tuition fees of children of Statutory Appointees and professional staff, Council decided that, as from the 1st of January 1989, an allowance not exceeding US\$1,000 per child per annum should be paid irrespective of geographical location of the school. Fees will be refunded upon presentation of supporting documents.

- As regards tuition fees over US\$1,000 already paid for some officers for the current academic year, Council decided that such payments should be considered as a right already granted, on the understanding, however, that, in future, no payment of the kind can be made by the Community Institutions. The personnel concerned shall continue to enjoy this benefit up to the end of the 1988-1989 academic year.
- Furthermore, Council requested the Community Institutions to submit to it at its next session a study on the possibility of paying the tuition fees of children of General Service and Auxiliary staff members.

17. On the issue of staff training not exceeding three months, Council decided that a subsistence allowance be paid at the rate of a full per diem according to the grade of the officer for the first period of 28 days. One quarter of the per diem will be payable for the rest of the period.

18. Furthermore, it was decided that:

- where an external agency does not provide full sponsorship covering fees, transportation, subsistence, etc., the Community will pay the requisite balance to cover such costs, excluding those in respect of language courses;
- language courses will not be paid for by the Community.

19. The relevant Council decision attached to this Report reflects the above-mentioned recommendations.

20. On the improvement of the physical and financial resources of ECOWAS National Units, Council recalled that, though it recognised the importance of these units in the follow-up of the implementation of Community acts and decisions, they are to be financed by Member States. To this end, Council calls upon all Member States to improve, whenever necessary, the human, physical and financial resources of the units.

21. The portion in the Commission's report on the consideration of the Financial Controller's report relating to external loans negotiations was amended as follows:

"The Community Institutions are requested to make available to the Financial Controller all documents relating to external aid. All contract documents must be scrutinised by the Financial Controller before they are submitted to the Community decision-making bodies for approval".

22. Council noted the poor attendance of Ministers at the November sessions. Member States were requested to take the necessary steps in future to ensure that Ministers attend and participate actively in all Council session, especially the November sessions. Council agreed to consider this matter more fully at its next session.

23. Council also requested the Executive Secretariat to take all necessary measures for the organisation of statutory meetings relating to Budgets, especially the Council of Ministers, during the first days of November each year.

24. After the Republic of Senegal accepted to remove its reservation on the Work Programme of the Energy Division of the Executive Secretariat, Council decided to include the cost of the pre-feasibility study on the inter-connection of electric grids (OMVG-OMVS) in the Studies Budget of the Executive Secretariat. The Executive Secretariat was requested to take measures to effect the necessary resource adjustments through virement from one budget to another. It was understood that this proposed adjustment process would not under any circumstance lead to an increase in the overall size of the 1989 Executive Secretariat Budget. The two organisations, namely OMVG and OMVS were expected to make a formal request to the Executive Secretariat to this end.

25. Council approved the Executive Secretariat's 1989 Budget balanced out at Six million one hundred and twenty-six thousand nine hundred and five units of account (UA 6,126,905) in income and expenditure.

26. Council also approved the Consolidated Accounts of the Institutions of the Community for the 1987 Financial Year.

(ii) Trade, Customs, Immigration, Money and Payments Commission

27. After presentation by the Chairman of the Commission, Council approved the Commission's report, subject to the following observations and recommendations:

- The updated percentages to be used in determining Member States' annual contributions to the budgets of the Community were worked out in accordance with the provisions of the relevant Protocol and in line with the Council of Ministers' directives issued at its June 1988 session in Lome. The updated percentages will be submitted to the Authority of Heads of State and Government at its next session for possible negotiation. The Executive Secretariat was directed to prepare a Memorandum for that session of the Authority on the possible implications of the adoption of the new contribution coefficients, in relation to the situation presented by arrears in contributions.

28. The tables on the updated percentages for the determination of Member States contributions to the budgets of the Community are attached as appendices to this Report.

However, Council requested the Executive Secretariat to update the tables by using the data relating to the 1986-1988 period.

29. Council also took a decision relating to the adoption of the provisional budget for the compensation of loss of revenue to be suffered by Member States as a result of the implementation of the intra-Community trade liberalisation scheme. A decision on the list of firms and industrial products approved to benefit from the ECOWAS Trade Liberalisation Scheme was also adopted.

(iii) Transport, Communications and Energy Commission

30 Following presentation of the report of the Commission, Council adopted it, as well as the annexed recommendations, subject to the following observations:

31. With regard to the recommendation on the establishment of the ECOWAS Reinsurance Corporation (ECO-RE), Council requested Member States to encourage private promoters to participate in the development of the company.

32. The Executive Secretariat was requested to establish in future the order of priority for activities to be undertaken, it being understood that road transport development programmes should be regarded as priority activities.

33. Council further stated that only activities contained in the programmes of the Transport Division to which votes have been allocated should be implemented during the 1989 fiscal year. Other activities having financial implications could be considered in subsequent budgets.

34. Council also decided that, in future, only programmes duly authorised by the Community's decision-making bodies should be included in the studies vote of the Executive Secretariat.

Item 4 : Composition and Establishment of the Ad Hoc Ministerial Committee for the Selection of Statutory Appointees and Evaluation of their Performance

35. This item was discussed in closed session.

Item 5 : Selection of the New Executive Secretary of ECOWAS

36. This item was discussed in closed session.

Item 6 : Report on the Conference on the Indebtedness of ECOWAS Member States

37. After presentation of the report, Council noted it, as well as the recommendations contained therein.

Item 7 : Provisional Report on the Construction of the Headquarters of Community Institutions (Fund and Executive Secretariat)

38. The ECOWAS Fund Management gave an account of the state of payments of contributions for the construction of the Community Institutions headquarters. The report noted that only seven (7) Member States had paid up their contributions for the construction of the Institutions' headquarters.

39. In view of this situation, Council adopted the recommendation of the Administration and Finance Commission and decided that a delegation comprising the Chairman of the Council of Ministers, the Executive Secretary and the Managing Director of the Fund be sent to the current Chairman of the Authority and to the Presidents of the host countries with a view to finding an appropriate solution to the problem.

Item 8 : Report of the Board of Directors of the Fund

40. Council noted the report of the Board of Directors as well as the recommendations contained therein.

Item 9 : Any other Matters

41. Council directed the Chief Executives of the two Institutions of the Community to enforce discipline among all levels of staff.

42. The delegation from the Republic of Sierra Leone informed Council of the desire of the Mano River Union to put at the disposal of ECOWAS the facilities of its Telecommunications Institute.

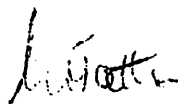

V. ADOPTION OF THE REPORT

43. This Report was adopted.

V. CLOSING SESSION

44. In his closing remarks, the Chairman of Council, Honourable Mbemba JATTA appealed to all Member States to strive to honour their financial obligations to the Community and faithfully implement all Community Acts and Decisions. The Chairman expressed his gratitude to his honourable colleagues and distinguished delegates for their high sense of responsibility, understanding and cooperation during the session. He thanked the staff of the two Institutions of the Community for their devotion to duty. The Chairman expressed the appreciation of the Community to the outgoing Executive Secretary, Alhaji Momodu MUNU for his contribution to the building of the Community and wished him every success in his future endeavours.

The ECOWAS Council of Ministers, holding its Twenty-fourth session in Banjul, Republic of the Gambia from 4 to 6 December, 1988 expresses its profound gratitude to His Excellency Alhaji Sir Dawda Kairaba JAWARA, President of the Republic, to the Government and People of the Gambia for the true African hospitality extended to delegates and for the facilities placed at their disposal which contributed to the success of their deliberations.

OPENING ADDRESS BY THE HONOURABLE MBEMBA JATTA,  
MINISTER OF ECONOMIC PLANNING AND INDUSTRIAL DEVELOPMENT

24TH SESSION OF THE ECOWAS COUNCIL OF MINISTERS

BANJUL, SUNDAY 4TH DECEMBER, 1988  
-----

Honourable Members of Council,  
Distinguished Heads of Delegations,  
Your Excellencies, Members of the Diplomatic Corps,  
Esteemed Guests,  
Ladies and Gentlemen

On behalf of His Excellency, Alhaji Sir Dawda Kairaba JAWARA, President of the Republic of The Gambia and Chairman of ECOWAS Authority of Heads of State and Government, the Government and people of The Gambia, and on my behalf, I extend to everyone of you a hearty welcome to The Gambia and to this Twenty-fourth Session of the Council.

This being the first time The Gambia is presiding over a Session of the Council of Ministers, permit me to express the appreciation and gratitude of my country to Member States for this honour and privilege to direct the affairs of the Community. I can assure my Honourable Colleagues that, while we shoulder this responsibility, my country is determined to do all that its limited resources would permit to advance the course of West African integration.

Honourable Ministers,

I started my stewardship with a familiarisation tour of the Headquarters of our two Community institutions. In September this year, I visited both Lome and Lagos in the Company of the Executive Secretary. I met the officials of the Fund and the Secretariat and held fruitful discussions with them. During my visit I had the opportunity to pay

an inspection visit to the Construction sites of the new permanent Head Office of the ECOWAS Fund in Lome and the Headquarters of the Community at Abuja. In both places I observed that work was proceeding satisfactorily.

During my visit to Lome and Lagos, I had the honour to meet His Excellency General Gnassingbe EYADEMA, Founder Chairman of The Togolese People's Rally, President of The Republic of Togo and His Excellency General Ibrahim Badamasi BABANGIDA, President of the Federal Republic of Nigeria respectively. The very illuminating discussions that took place with these two great leaders confirm what we all know of the two Presidents' commitment and dedication to the Cause of our Community.

My tour of the two host countries of ECOWAS institutions also prepared the grounds for an official visit that His Excellency President JAWARA paid, in his capacity as The new Chairman of the Authority to Abuja and Lome. I accompanied the Chairman of the Authority on this mission which took place in early October and during which the affairs of the Community were discussed with Presidents Babangida and Eyadema.

Honourable Colleagues,

Since my assumption as the Chairman of our Council, I have made a very careful study of the cooperation programmes that we have adopted in order to build a strong Community. The list of activities embarked upon by ECOWAS is very impressive. What is not so impressive is what our efforts have achieved so far. However, considerable progress has been made in the telecommunications and infrastructural sector generally. Some progress has also been made in the immigration field. In most areas one can only describe what has happened as good initiatives which need follow-up.

There is no denying the fact that the West African economy has suffered many reverses during this particular decade and each country has been battling with economic stagnation or decline. The pressure on national governments to achieve economic survival on a day-to-day basis as it were, has not been helpful in our common pursuit of long term integration and development. However, since a secure and prosperous future for each Member State lies only in sub-regional cooperation, it is imperative that we see beyond the present debt and economic crisis. We should continue to support our Community and pay more attention to the needs of our ECOWAS institutions.

Honourable Ministers, Distinguished Delegates, this Twenty-fourth Session of the administrative and institutional problems of the Community and for the provision of financial support to the programmes to be executed by the two Community institutions in 1989. Our officials have examined the substantive issues on our Agenda during the preceding sessions of the various Commissions here in Banjul. I trust that we shall be able to arrive at the decisions demanded of us, which are needed to keep our Community functioning smoothly.

Honourable Members of Council would recall that in its 1988 Final Communique', the ECOWAS Authority announced its decision to create an Ad Hoc Ministerial Committee for the selection and evaluation of Statutory Appointees of the Community. It is my pleasure to inform Council that this Committee has been established and is made up of seven Member States. The Ministerial Ad Hoc Committee is scheduled to meet here in Banjul immediately after this Session of Council.

4/...

Dear Colleagues, once again, I welcome you all to The Gambia. The modest facilities that we possess are entirely at your disposal. Please feel at home.

I now have the honour to declare the Twenty-fourth Session of the ECOWAS Council of Ministers open..
