The Commission's mode of action as in the Protest by the English Agents are untrue.

We have told Casper Abacan that  
the Deputy Tom has told that Abacan has promised  
him some valdoviz for the expenses he incurred, which  
he, Abacan, wholly denies saying that he had  
never thought of it. He also at the time he was  
at Cabo Corso he had given that 2 buendias gold  
for Tom & so far as he knows that was  
entirely valdoviz of that, which he had well promised as they

Re for this ltr of 10th I have for complain  
of our Cabler Tom's sending an order of justice  
to those of Sancia to demand the sum of  
24 bendos from Aqua, as as this whole  
affair was settled after this paper and as  
the Court never wronged costs since for it  
I shall give for the trouble of having the  
whole affair. / I think it was about a

year or both since Abacon & Tom

separated by the brothers de Craze challenged  
our Court to give, in consequence of which

I shall see Thomas Amiel have justice since

Created this is a request so reasonable judicial on the  
behalf of Thou Justice is what I could have  
expected from J. H. ... the only reason for a request  
that can only be arising between adjacent units for  
general and double : at least that for with low cost  
one of favor in an affair that can so regularly occur  
on by all parties before me : that is inclusion  
Thou shall be reimbursed his charges I will hope the idea  
for shall have permeated the mind of the men with I  
know at least ... for the best solution requirement of the  
legality of Thou Justice of demand.

The father Coller of the writer of was part in Palera of  
the County of Earl Shippis : and to sell things under Duccio  
the King's charter of redemption of Robert Dunco with  
who came at least protected by Earl Butler , and some  
people to his assistance against the Palera to escape to  
Cape Land where after a little stay he died . He left at  
the time 2 Parsons : this last for 5 Parsons part  
created him for reasoning on the general opinion  
of the Duccio (?) that Shippis being soon after  
being arrested here by the R. A. C. the Parsons are  
to be sold off the land for it debt . but the King  
applying to the Justice set himself to go to  
Spain for so much money ( Thomas's Signa )

Cuba has been (annually) redeemed by this father - his  
Talera of future). Other two parts of the future  
Cable are passed to Thou Anishe a stain  
with him, at Mbancom, on behalf of his friend  
Aqua, takes up 2 free people & slave belonging  
to Thou Anishe set was sent there to be  
sold not having considered as reason for so doing  
knowing Thou makes refusal of the tobacco  
It writes of; then began this quarrel Mbancom  
giving defiance to Thou Anishe by sending  
~~some~~ powder shall ~~with~~ ~~the~~ ~~round~~  
de ~~surfer~~ ~~total~~ the C. C. judge he was come &  
began this time. The powder & shot Mbancom  
said might be shown to his master (meaning  
myself) & it was better love & de line higher  
the sleep ~~rather~~ ~~rather~~ was here on some  
compliment from Elmire that it appears that  
Mbancom by letting up some of Thou's people  
without first giving notice, began this quarrel,  
& it is hardly allowed to Mbancom offering it 2  
set times visit & to ten days to Thou Anishe  
for solution: de polimer topaz his charges  
the two Nancy Thou need or Thou Mbancom

Thus have I particularly this affair by which the

Dec 15 1925 Letter from Valentin to Tucker

~~after his letter of 8 Dec (25)~~

Today we read Jan 12 of 2/12 05 from which we saw  
 that you still persist in your sentiments as if the Cabrer  
Indalbor Abacan was the 1st cause of the armen  
 disputes which we had succeeded him on such  
 occasions as to participate in our opinion Athenequa  
 About that we must say that the report is entirely  
 untrue. <sup>of course</sup> we were never able to show to or convince  
 as that <sup>Cabrer</sup> Abacan is in any way connected mixed up  
 in the polemic between Agoffo & Athenequa  
 but on our side, has always kept quiet. At the time  
 a wife rich Athenequa of your regard had declared  
 both in the bearing of his own & in the holding &  
 paying of his people - the attack on his children  
 in case could not be called his (Vito's knowledge)  
 we are already aware today in your October letter to show  
 that what is claimed. It was done by a poor man  
 who had been neglected - the same instance the other way  
 on - . . .

Just if it is desired to live in good friendship with  
 us in our satisfaction as always with the other  
 armen between our various subject regions is as satisfied

to us & do not let the do not mind. Has sent news to  
Almeida. We shall also contribute all that is possible on  
our side & later show our access to the Almeida to assist  
them to an accommodation. Our sentiments have always  
been so kind to the Almeida, that I wish to avoid the  
mistaken fire of the Almeida, which was, before the  
attack of Almeida, had begun to surround us with 3  
boats filled [? letters?] to Almeida, which what  
police he had against Almeida his bearing on the way  
that of attack had taken place the return: and  
last words when de Almeida says Almeida, which we  
sent a letter with a white flag to show what their  
intentions were but returned bravely to Almeida  
Almeida had already returned with his men so that  
if all this we have not shown de least discrimination  
to make de police.

What I do fear is that if de Almeida Almeida  
had sent to shore of Almeida to assist de  
against Almeida which up arms against him  
It is badly informed & we can assure I do not  
Almeida has not de least guilt in this: but it is true  
that the Almeida were killed by the Almeida  
of Almeida then was I do not know de Almeida will  
not send the news his arms before de Almeida are

29 June 1930 Transfer to Agents C.C. (Robt Crickbank  
(John) Proj. Peck, <sup>Frank</sup>Frankworth) It has just  
been reported to us by our Abacan our workman that today  
2 wages being to Quocor Altara had been paid & carried off  
at the Police house by Tom Antiske on order of Abacan.  
Cobär Abacan since the latter declares that his workman  
had indicated to him he has no outstanding debts to Antiske whatever  
we request for the instance Tom Antiske to return & carried  
off wages to Quocor Altara to avoid further difficulties as  
Abacan has reported both already to the officials which we  
will not discuss here

19 June 1930 ~~C.C.~~ C Coast Castle Crickbank Peck to

& avoid hostility between the two houses people by the village  
Antiske to take the 2 men from the Council not allowing  
the case of Abacan to be Antiske judge for if what  
the Antiske says will be that of our house people so be  
the Abacan must have preference in case to go.  
Why have a man return to believe this? On this occasion

the Capt. of Emma's Ship Quoad Attain, who was of the  
 Cabots who knew the name of the said ship as follows: -

About 4 years ago the Portuguese having some papers  
 with the Emma's people seized on a party and the  
 vessel was by sea and sold them peacefully on  
 board ships & it was our fate. It happened that two  
 of them were brought here to his Castle  
 being known to Abbotson & Cabot of his time  
 & John Williams, they engaged Thomas Arvidson to  
 redeem them & passed their words in behalf of  
 the Emma's people to reimburse him, & Thomas  
 Arvidson did accordingly redeem them & paid one  
 £50 & was slave for each of them. After their enlargement  
 these two fellows run away to Emma's here this time  
 & got to Emma's which Abbotson John Williams  
 (who were together in a ship) hearing of this sent  
 to demand their back or payment of the  
 value. This was not to any private person but  
 to all the Captains of Emma's time who had two  
 plants of liquor here Abbotson to drink  
 on their making. He well understood was a promise  
 of satisfaction & these promises were continued from  
 time to time till our people being tired with  
 such delay payed into Emma's 1000

who also escaped from them before payment was <sup>made</sup> paid.  
Moran for two people living was ordered to satisfaction  
did pay for one of the men in dispute payment for him  
was sent to Thomas Arvidee by the Cofee of the town  
part of which consists in two bags . . . . .

~~Thomas~~ Moran was indebted to Thomas Arvidee  
to buy goods sold which he publicly advised Thomas to pay  
before the Collector of the ambassadors Aguilloe Ambrambore

Arcania was in course of the next voyage Thomas  
Arvidee was at it going to Estree with his wife  
Moran & making & recording him to the  
particulars of Camunda people & the Aguilloe type  
Moran once perhaps during the period the payment  
of this sum but then in two others in his time.

in the first public assembly for Moran's preference  
of both private Arvidee had for some time  
the King of Arcania certain & his sword with  
gold bands & trappings for debt debt on  
Moran service & expected services of payment  
he returned Didochiboo his names & it is only  
20 days since Moran sent one of his servants to  
Thomas Arvidee desiring his presence, promising him

Mba said let us go & build both houses  
on the rotation upon which Quococ had went  
to live alone in the village: Kumpi [? Kumpi  
or Kumpi]

But Quococ had a brother Muzie who lived  
at prince before he went to the bush to build  
his house. Muzie is the bush Quococ had and to  
come & see Mba said they on all houses die  
rather it was time for Mba to rotate & Q C  
could not come himself to help the he sent 4-5 men  
with their weapons to work in his place  
at the same place where the war had still stand.

Q C's people always helped one of brown plants &  
slaves had to be carried down

When Quococ had heard of Kumpi he lived with  
Mba & lived him he allowed him to dwell  
there there let me his cousin Muzie

 at 5:30 am some rain appeared. With the 4 lb. shot

 while we were there: I had a goodly number of  
 during the night at the place to another boat

 for the 3 shots. Then toward the 2 lb. on  
 the palm trees began to attack it. At midnight  
 let the Kochuan workers play a few strokes

 Before at evening had to stop for a few minutes & returned

 with a soldier with them was named by the Spaniards

 that the enemy had retired to the main the  
 peninsula ~~that the islands were clear of~~  
~~them~~ our men were within of the islands  
 so that I could safely come on with the guns.  
 Went on the beach the land going up  
 river to a place to Bozo where we also  
 arrived at 3.30 found most of the Colons  
 sitting under their umbrellas on wooden pegs  
 on other pegs: some of them were still  
 fishing but about 5 o'clock the enemy fled  
 to the 3rd line into their peninsula. Bombers  
 also not looking on our side or going up I  
 had driven away back. While stopping was  
 by Bozo read 2 letters from Pelungu  
 written to Amice: the first gave some  
 news: the second of later date gave  
 definite news that Amo's offer will be at  
 C April within a few days. You will doubt  
 whether he keeps his word.

The fish being scarce I had casted words  
 to entrap the game & had run up under which  
 to cast or catch. At about 10 o'clock Amo came to the  
Mia Letti came to tell me that

As many had with a way through the unpopulated  
the intention it was to get the way of it offering  
the services of the Spaniards for this as he found  
that if we left this way unoccupied we could easily  
be attacked in the rear in the transport of the  
guns. I offered his proposal when he requested  
me to send him other men to relieve him of the  
post he was occupying. I did not order the Spaniards  
to this who willingly obeyed. At the same time  
his movement gave me of their policies for the first  
time & put upon the Spaniards & Moors they  
defended themselves bravely & by the assistance  
from the air of the Spaniards I ordered the Spaniards for this  
but they were unwilling & the Moors followed their  
example & so far as for how going into  
danger again. They dropped out of the field of  
battle so far as they could were able to outstep  
our sentries while the Spaniards engaged in  
plundering the corn fields here and there.  
The Spaniards & our men were of no avail, so I had the  
2 half companies loaded with grape & musket  
~~ammunition~~ advanced on the enemy on the head  
of 4 whites. My Spaniards then flew out  
in advance & sent my shells into the

Amelich's who, as soon as they saw the  
 white man's drum, fled hastily into their  
 palisades - we just had time to send  
 him a volley of grape. but I am sure  
 if it did anything was then hasten  
 their flight. The 2nd gun would not go off  
 the powder bag was struck by the ball & burst  
 in pieces, by a heavy storm of rain that  
 which we had made up: which was very  
 fortunate for the enemy as they were prevented  
 from putting on a mantepe to ~~with~~  
~~camp or any~~ pitch our camp as a caution  
 shot from the palisade which we have had  
 been in a position to attack it with fruit the  
 next day morning. but we were not  
 prevented from doing this: as we stood like  
 the enemy we were not a little weakened: however  
 all the arms & munitions of those who remained  
 were lost though: the powder costs too short  
 remain the bare sky & also the cartridges  
 for the blunderbuss & cinders for the cannon.  
 On the 10th band the enemy had been sheltered  
 during the heaviest rain shot had been able to  
 keep his powder dry which after the rain

He would have (and us for the most part) a delightful  
state which we should have seen the risk of suffering  
disease. By his Hawaii Boat urged us to take  
into caution which I would wish to better to work  
back to our old camp & bring the prisoners into order  
& to meet the attack with fresh men & the most  
wisely. I apprised the Federal & decided the  
unwisely to return to the first captured  
palms. The retirement was made in good order  
of Skinner, Adams, & Egan found the

At 8:30 pm we came back, and took to our  
camping place. It was a considerable time before  
I could see it the dark being black and foggy  
for the palms, to the north of the ridge being the  
black and foggy asteris. <sup>Since 200 of</sup> these driven back but about  
an equal number escaped. The old & wetter were found

In the 15 days in the Mts who had been

parted me and I went to ground with one of  
them named directly or indirectly help our enemy. All  
the people were of Jetha Kassaathensi and now to our  
assistance in the first 500 days. But some men of  
Nkurri Apinlonba tried to come to reinforce  
us. But Mha who had come from another Co offer his  
help was to be met in within 18 days. I sent the message  
to all the Chiefs with the news.

At 8 pm Egunis reported they had been on the  
of the enemy.

9 April In evening reported that the Egunis stayed at  
the decision I absolutely took the enemy quite  
near camp & I didn't return I ordered the guard out (with  
bayonets & loaded the guns loaded with prop. or the powder.  
But of course of idea with men of this one had to decide to make contact  
in the night if the enemy could not be persuaded to allow their  
movements today. - The Egunis after some difficulties agreed to  
stay for 6 days near if the Egunis was back of the  
ways better. He accepted & arranged for a following  
posts chosen to keep a base Scania Calkam & Mmenia

The written opinions [already  
copied] of this date on behalf  
of C. M. J. were long brought to table & considered  
The B. (Hayden) stated that he could never approve  
that we took a step to ask America for peace  
& he considered that we should delay a rejoinder  
to the contents of the copy & he was not sure that  
our force was so small & that our numbers might  
give him assurance - dearest judgment.

5 December 1764.

C. M. J. was of an opinion  
after much further discussion the  
B. Hayden proposed that we should still at

Recd / The Gov of CCC being laid before me the  
manifest several reasons which as your letters have  
been done to the best; they is the reason why I  
refer into this correspondence. I find that you  
call the people of C. N. Y. your enemies & I  
see from your Protest that you view them as  
such which signifies more than what I hope for  
interest to do. It is very well known Sir that  
the Agreement made with the C. N. Y. is  
authored by the King of S. D. & is not a by his  
Council what he will not suffer any people whom  
he looks under his protection are disturbed, but will  
protect them for have ordered them what I  
think was done to obstruct them by making  
them believe that it was not in the power of the  
British King to assist them. I should much regret to  
have to convince them to the contrary & prevent  
so these former friends to find for a separation to

decide this matter in a satisfactory manner  
 notwithstanding your protest which it appears to me  
 one must regard as a declaration of war & your  
 expressions of regarding these people as your enemies  
 in order to protect whom I have been sent out  
as your works & full quality of conquest of duty  
if I did not carry this as strictly I must  
 therefore desire a free passage over your territory  
 for the people who are at present under your  
 protection of the British flag a desire which an nation  
 will not refuse another without being in your way  
 so that you will not refuse it so that it will  
 not run to a breach of the good harmony which  
 subsists between the King & Queen & the States of  
 Holland your reply will to this will work out  
 decide how to act.

 Its surpris'd that Peter has complained to him  
 about a violation of several orders given to the British flag  
 as authorized by us. <sup>We have many ships</sup>  
 for such complaints he has always expected treated  
 the flag with the greatest respect they were doubted  
 that of (as of England) to protect us as he should  
 always have assumed that the flag was not to be abused

to help a rebellious husband of ours the deanery is down in
