not mistake that any of them stay on your territory
as any common man should perceive (Judge) the enemies of this
is originally, but which I should be extremely sorry to have to
do it to time when we are in the most delicate &
unstable peace and this is the case. I find the importance
of the English fort being made well ^{likely} aware of the obligation
which I have already being.

Summary of correspondence with Mexi
in 1973, with interest in Jaxxool.

1. 16 Aug 1970. ^{for} Jaxxool Mexi.

He reported that on the night of 16 Aug Mexi
got to Phars all his from volunters have had
entirely wooden hollow cuts. & at ending
16 Aug was to ask the same people
was that of white slang stones paymen
everything did not pay at under
the volunters were also beaten & worried with
stories, & I did not find it.

- note the looking over the part of the
pages of the usual articles, for 1966
I made a specimen with them as is usual

also which they have also complained once
when I had those printed upon:
remembrance also telling the tale of Bede's
taking of the sword to make ^{so} to
be used in the difficulties of ^{affairs}
anything being payed by a white
or they have I would give to furnish
them. - but with us done. They sold their
own time to time to the Wessas
for which reason I had given to hold it
from Don'thore: & Cornantyn: altho
I had offered them the only price
I could give and have it. & if the
soldiers had not word & then
got some from the Egures they must
die of hunger
- some would's of ^{two} soldiers throwing
stones into the bank in the course of
the ^{the} Lo-poren on the bank. They sent
the water between themselves in the
reporting to come: & when the Flame died
it was a time to come to explain
the flame was dead I could do nothing
it was all already sent -

Two days after some soldiers meeting
in the morning on the beach and a boat which
to see if there were fish inside.

(Because they found that in the fishing
time the same fish were the
fish that the small boat catches shows

• they were taken by night into the boat.)

It was reported that with the help of
some of the soldiers were used in

the land; it was some to explain

- It tended to be a fish there the

was worried that some party go unharmed

... they have ^{to} spend a blockaded

the fort & more ^{may} bring Kanite a

anything else inside as the soldiers are

beyond the range of the guns.

- He is useless for purposes other than

his boy for folk rocks for some

It's the same story

as they also felt looked at the time

of the Victory as then have they

but those released school runs &

hear that they have drawn a cordone

Accusations against the upper

 Earl of Acus made at the
 Acus bridge at the first meeting
 the 1st September 1770.

Art 1.

The Acus said they had had unreasonable
 payment with their Earl (after I had informed
 them of my arrival) like the de Pieter
 but that such only concerned one notice

named Keinja, but the owners of whole
brigade, that because of his ill treatment they
did not want their share any more, but
asked if there were ~~not~~ any more
whitemen in Europe, that we should then
offer us their bodies, to Confil Ranken
stationed in the Garrison here. The reply
was that they could be satisfied with their
Sovereign, or that we could give to God
and then so that I could expiate into it
+ as justice to each, as that I was
not free to choose another share —
They had to deal with us: they had
objected to dropen timber for whole days,
+ otherwise were broken beyond.

Art 2.

Master by they were prevented from going
after the water but the Evers' servants well,
altho they had with the whites' servants, God
judgement punishment.

 I offered they were unreasonable & must listen
 to reason when what de Lar' had to say
 against them. So that I could settle the
 matter amicably, for which the General
 had sent me. They said de Lar' could
 bring in what he liked, & it did not
 concern them. He did not return, & when
 they all repeated I should make their
 complaints known, but they refused to meet
 and we again departed with grief.

After long time what was possible I finally
 told them that I regretted that they would
 not listen to reason which they despised

 send some envoys to them and to
 Jews' chief around Shirin, to inform the
 General of their complaints, themselves:
 I did not wish for me to apply another

Commany, on the treacher. Therefore

Quocor Ngua knowing that these people were
staying at Commany about which he got
information in a while, but that Nubi asked
how to come by them who said to him then

Amst (J C Lemmel). :-

to Jan 2 Letter from Amst (J.C.F.) 28/12/70
last Monday I sent my servant

to Amst let him know of my return
to Amst the paymaster Wossa notwé,
& ~~was~~ ^{was} ~~to~~ ^{to} have him told what the
Wossa messgrs had said here about him.
what I had replied to them & so what

I had written to you about it; from Stanley that I
had heard from the Royal Col de Quarters of
Boquinos had some news of mine, and
that he would remember the jurament given in
the year 1767 that if anyone had a claim
on the estate of Coltray they would come in
as I recommended him not to send any more men.

So this he has let me know by today
by my servants that he would keep quiet &
not rise (oppose), but that of the Wessas
and he would also do so that he would
not stir up any tale of Wessa but
that that he thought it best to let Entjokon
know that if Entjokon sent him 3
hundred to Stain into 2 lands & I to
him, that he would then give that hundred
into 2 lands, one can be Wessa
Wessawse to do as he would under that
then Entjokon has time to time either 2
or 4 or 5 sold as much as my Zouden Bergen
for him or as he would that I did not
be too quiet him or him & an or long
system, that he had of Wagethouwen, which
is Volden.

That as regards the Gz of Roguonit,
 it was true: but that he had saluted him
 that that that Roguonit had was sent
 some Swedes of his people on all the
 the Polaver by the women, (who and
 has stay), but that the Swedes had made
 gentler judgment as well as he &
 that they remained in one ^{with} the when they
 met by going to Polokuen, all in an
 way Goden tepenshonden, wch hij voor

 was ~~at~~ how that I had given them
 no reason for such an opstand &
 boldadigheden and this was: also that
 his people must pass as freely as theirs
 that he had never gone by the door.

By ~~with~~ one of his negros who came here
 and a servant, returning to day, I have let
 him know that I could not yet say anything
 to him about the Wossa matter of the
Wossa but first must await reply in pt.
 that meanwhile he must recall his men out
 of the ways to Wossa & as regards the
 negros of Roguonit that I reported

thou her (hui - copy) to recall these as
Prigions being friendly in the service of the

Ami (L'Amekol)

September 12 In the Ami (4) 2/9. ... C Apol
For some months past Amekolia
has remained unvisited we with all
kinds of things too long to engage of his
attention with them in which I have always
generously been in the hopes, as he
promises early, that he will come here to
settle the whole matter. Last Sunday
the visit of this month. (sic) came away
afresh from C Apol: who appeared
a claim of 80 oz gold of the kind
of Quamina Isiadol died Eguira
Colvree depends we van him in that
land these schieden can do ourselves
present had given. In doing of this being
known to me I had done of Eguira called
others from the Cape have wanted
the 6 days I have also at once in
the Eguira King of Eguira the Ami
granted. However this solution is put
and it was expected that all the debts
made before the war are to be settled when upon

I have let Americus know (because he had
 we told if a hole came in his way he wd
 open it) that if he had opened an
 Escurio hole I should then regard it as a
 breach of the restraint of words in 1767.
 that we never handled over past of
 matters except in the making of the
 final. piece: & that if he wd come I
 would then seek to come to an agreement
 with him. but before that he must not make
 here any more with debt powers.

of James Stearns Esq
 letter from Stearns (S) 10/9.

Today I had the hon to inform Stearns
 about a claim from Americus about the
Escurio matters people in which I
 have displeas'd him ~~last~~ & he of today
 that night I wd envoys again informing
 us that he would listen to us & let that
 claim sleepen till we saw sod other.

but telling he has let me know
 that Stearns or his father had
 displeas'd some of his people, with
 thinking for what reason I have let

him know that he cannot be assured
that there was not all hands retreating them
from our side we shall always seek
to observe the best and mode, & recommend
him to do the same.

Reports that some disputes have
occurred at tervina between the Coler
Atca and the Coler Entry among whom is
one of 3 subjects, the opposite opposite of
the Hill Jantje.

I would have reported the matter to you
before but I cannot get at the rights
of the matter, but so why I have
waited so long before writing to you.

You have the honor to report that
it is about 10 men or women the disputes
have come: those of the day named Entry
have run away under the protection
of the opposite of the King here whereas
of all the garden between you as the
opposite says they are his people: the
class named Entry declares them to be
his slaves

They were absolutely right which I have
~~mentioned~~ ~~been~~ ~~retained~~ them till today
as my best to settle the disputes
