Letter from Peter Langens at Bremen. ...

Sunday 2nd May 1706, ...

Monday 3rd May 1706 for from Peter Willem van Nieuwlandt at Comumy...

We also wrote Peter de Candole at Chaux to accompany one of our servants, a nice Colonus which de officio of de Job's Jobi with the King, could be determined thro' our intercession. Write also about it to Peter Hefting at Sorvode & reply to his of 28 ulto ... & Peter, most seriously recommended to him that he should take into his protection the Anterie Cabaret Jan Tolk who was banished, & maintain him against his enemies & to see that they did him no harm or difficulty, & help him in his just lawful claim as said Colonus meant well by the Coz, & would answer it with faithful service.

Tuesday 4 May 1706 In afternoon the "Order" coming of Comumy had as told & mentioned Peter Pospo that the King desires to order ^{them} them on but leave you to look together with all Aquillo de eyes, without knowing what he had done; & our requesting our help. Upon which we & one sent one of our servants to the King of Comumy with order that if his brother had done him wrong, he also should do him no injury, or that we also would have to take measures: for the daily disputes are the principal cause that the two Princes can get the discordant higher, wherefore we judged it better to unite the two parties again by our intercession than that the same should break out into arms. ...

Wednesday 5 May 1706 also vice letter from Bouring factor.

Note

van Dalen of left inst ... that his subject Calcaens had been -
 unincited Calcaens that the Prate Molange papers had been
 by order that they would never more inhale the English at
Tocorani: which time well show. Also said to from
 Seconde Factor Leffink ad today ... advising us first
 that the old papers of Tocorani would be used to render inhale
 the English at that place to which some Prate Colonies
 were helping them, besides those of Prate Molau which is
 very strong papers the above to Van Van Dalen, which we must
 look to time to see what that difficult which was again undertaken,
Thursday 6 May 1706 this morning about 11 o'clock was placed in our
 hands by Timoteus his, a letter from the English

C.C.

General Dalby Thomas ad 1 March 30 in reply to ours of 25 Feb last,
 ... to Vellen long, full of calumny and expressions, but chiefly that
 that Quiter has already sent this letter to the English was ships to
 Europe, & to write, which that the same unless, say someone will
 render us of better kept good. Whether this is an honest act of
 the Knight we leave to the judgment of our Honorable Majors to whom we
 shall send copy ... The said bearer informed us also verbally that
 we Dalby would be glad if we would ^{such} come personally to Cabo Corso
 which I replied I would do at opportunity. ...

C. Quaffo

Two days evening our servant returned from Commanry, whom
 we had sent ^{day before} Quiter. He reported that he had put the news,
 given him, before the King, who had promised him that

he, on our intercession, would do us homage to his brother; but
the Order being, not trusting himself to these simple promises
had us asked privately, what we would summon him & his
brother the thing better to Elencia to appear in our presence
to settle the hate & disputes which would also be assured that
the thing would have no harm done to him, about this considering
that ^{the "order"} thing had still 3 brothers & a good following of
maagshop, we ∴ judged it best to refer of the City to
determine that matter than let it come to arms ∴ we at once
sent our servant back to Commaney with orders that we should
expect the thing this brother here at Elencia tomorrow or the
day after.

Friday 4th May 1706. Recd. to him from father Johan Landman ✓

1406. To come hither let the King Vorogof, who he would appear here at
 Duria first in following week: let as our several ^{subject} ~~subject~~ towns
 that the Comman Country, thro' the ancient disputes between the
 King & his Brother, was in "rep & war" runned certainly break
 out into a blood bath of we did not Vorogofen therein betimes.
 Therefore judged it best for the welfare of the City that we
 commission someone eliter persons in order to determine
 these matters if possible. For if the Order King & his two
 Brothers got the victory, the King came to triumph
 we should certainly have to see, after his death, the King
 of Saboe would predominate our said Kingdom with
 a volkag keerschappij of place one of his adherents in the
 same Kingdom like as he has lately done in frater
 which would tend wrothling else than the good we seek of our
 City welfare & wij ons wagt op dat Voronigryk (door

Today at the opening of the gate came to us the messenger Peter Posop reporting he had heard that the Kings of Sabze, Feli & Coomany had goodly quest that we had answered the underking Abetkiki ^{SIC} that we would send him such assistance with a large sum of gold of which we never know nothing else with our Cos given to the latter therefore they are ~~frivolous~~ ^{frivolous} ~~travellers~~ ^{travellers}: but in view that we get these 3 Kings out of our throats such vendigelen, we desire that a servant with a bottle of French wine spirits to them in view to assure them that we bewilde the neutrality ^{desired us to forgive} & in view of our oppression disputes desired that to have a friendship: therefore we recommended them not to be led in the least as slaves or subjects as we should have to show ourselves graciously about it.

In (season about 10 o'clock came here from Comany de
lower thing Bbetekke ~~Coma~~ ⁽ⁱⁱⁱ⁾ Coma (with a following of
about 400 armed soldiers) who came into the Castle with
3 or 4 of his Chiefs (Brethren) to greet us, whom we read cards

how he would never forget the wickedness which we had
shown to him on 9th May last in sending the Contar
Pempelaar & Van der Seme together with the Maaktoor
Pater Pasop in order to determine the disputes arisen
between him & his brother to which he had been very much
inclined: but as it had now come to arms he showed
was possessed his fortune first. He gave us also
a circumstantial account how he Van de Luffertie

about 5,000 men in order to settle there his affairs
Also had the thing his brother, together with some good willige
users tried to haken him van Kant in an inhuman
manner. We reflected within our Velt aanste, in the
presence of the Chief (Peter Bladde Bladde (?) & factor Francis
Pempelaar that we had seen his victory over the Comany
Contar but since his brother the thing had not been willing
to listen to any reason, or our intercession of 9th May after.

Oxins & Bongers in this current "outpost" the remainder
 is entirely from American people. Since the dispatch of
 the last "outpost" there has been another American here.
