But I have tried to remove out of the way

Jamba declares itself English. So this
it is said that Edjuncion & Aminie
have been bribed by the Earl of
Caap for of his friend they have also
succeeded in getting Lacon which was first
with Jamba, on their land. It is said that
Aminie & Edjuncion has each drawn
6 hundred & 2 hundred spirits. The Swipes
have six sword checks Li de last month.
They have of school Quarsai's slaves with
2 large canoes to Swipa I sent yesterday
a servant to Edjuncion to the Boyd

sent to Aminie for work ^{up till today} returned. They would
have served my purpose if he had not had

It consisted in a verbal of the whole of the

by an Indian, God ... - which is denied -

P.S. whether it was ever or not the King of CC send to

 - In reply to the request for aid, he is
 to regard the Jambas, but this moment, as
 our house business who have not to expect
 the best help support more than us - We
 are for if they appear with subordinate means
 a proposal, as far as we can see the whole nation
 they have more fidelity to whom they have given
 the best of us ... we are for who to hold
 the best conversation and then we may come
 to aid for subjects to who themselves of her

ways to previous trade: but instead of doing this they tell us that we know that the Afrikaners had been driven rather away than the Jumbas or Datje people, through whom the war had arisen; even after they had returned from Jumba they had to suffer very much less from them in our dear war to be taken holden of these excessive scarcity of food stuffs working greatly, and by doing that they would not doubt that the ways were opened and at the least previous trade were brought here. On the contrary they are as the Afrikaners subjects as much injur or terrible, as they have already paid 3 Afrikaner subject expenses, as if what sold to Jumba ... as the Afrikaners have already undertaken to send help for the British in regard it is well to offer that they ^{receive} alleged and the Jumbas shortly can Alexander ^{and general} rocket tegen shore of the British. I expect that I have done as nothing in the matter only and address
themselves to the fact which they have asked for a few lines.

April 14 Dr. Horn Apam (HWS) The envoys have come "

here & I have told them that when they
can again send back the flag which they own out of

announced contents to them to which they replied that
they had nothing to do with the English
natives & therefore they would seek to get back the

natives, to which I have given them 14 days

upon which they departed. And as it was
nearly certainly dead and for previous stroke
which is extremely necessary to do so, the Apams
still continue in their ^{former} intention to support the

 namely, that if they would ~~leave~~ ~~de~~ ~~side~~
 of the Jumbas & afterwards have nothing to do
 with them, they were prepared to settle the polaver
 with them & stopper the ways for the carriers of
 persons & trade - but they will not listen. I have
 also rejected 1/2 good advice, & should respectfully
 request J's orders (in case the Jumbas could not
 obtain the general stop & the free brief of de English
 nation about ~~the~~ ~~side~~ (now) about bringing
 the Apam ingloans to distance of face, last

May 18 de Appan (Hes) 20/4 (sic) ... the elders of Jumba who have returned from Cap Cors

were in de Fort again today without having brought the outside flag & my brief from de English with them

They say however that the Gov of Cap Cors had said to them that he was already committed over his time in the country, was sworn as his brother and would otherwise could not trouble himself with their profane matter as he had work to do to get in his outstanding debts. ... adding that the flag was with in his hands & he would give it to my brief

But ^{this time} this representation appears to be false as I have learnt underhand, even from Jumba people, that de Gov of Cap Cors asked how they go on as impious in order to make a beginning

with settlement of the matter but do they intend
to give them responsibility, doubt that of ^{we believe} they ~~can~~ ^{under}
the protection of the King the disputes would be settled
without giving injuries.

And since from this manner of acting it most
clearly appears that they do not desire to be
in order if possible, by severe steps necessary, to
effect that they are reconciled with the Irish people
I again request that towards the orders of the King
subjects will not abandon the party of the Sumbas
to compel them to be free as soon as they have paid
as many Ajemas as they have sold here & sold:

June 19. Lr Hon Apam (H.W.) 10/6. Today all the Apam Envoys informed me & requested to communicate with the following. That they were certainly intended to leave the side of the Jumba people & if possible to be reconciled with the bush people: that they begged of the King forgiveness over their obstinacy in driving the sons of the Jumbas at the time of Commander Kerck: praying that the King help them if they came to an agreement with the bush people that they were Demogend & had nothing ^{in order} to pay: that the Deputé for Tunder, had arrived at Santon quarry from Acra with orders to unite the Jumba & Dalgesche people with those of the bush & to settle the whole matter standing between the two Cours (sic) that the bush people had already been called: & finally that the Jumba & Dalge people had been ~~and~~ framed enough in Offikhu sig. from them by declaring to the bush people that they in vervolg would have nothing to do with the Apams or tribes themselves in the least with their matter. I request of the King to this in order to be able to act accordingly in case the bush people send envoys to me.

to for more willing at what is accorded to the
Custom of country " I know that the
Comantze people are accustomed to go
to Spain whole & hence in the
fishing time, to live here in which time
they are regarded as subjects of
these villages & enjoy the same rights
as those residing here: so the Comantze
people have nothing to do but to
compel the people of Spain here & of the
other villages who have pleasure & called
our people, to surrender us well &
then & with before I will hand
over the Comantze people. ... let the
Comantze people send their salaries

I will have over the 3 Comantzes
