 of some officers and Kings of Elmina & Esquofor  
 among of their <sup>representatives</sup> disputes & matters. [166].  
 The Earl said, his decision is to dispute between  
 Elmina & Esquofor.

If as respects the dispute on the great ~~British~~ British,  
 it appears that the Elminois would have  
 him let act as the great, as the judge of  
 Esquofor honor the British of Elmina: wear-

The proximity of the English territory found, caused  
wondering how long to time over the prospect

since submit themselves to it & it is very desirable, in the present state of affairs, to have certainty whether, in case of need the help of Wassa can be counted upon.

The Members of the Council fully concur in the proposal, upon which the President states that Messrs de Leune & Violenceux will be invited to proceed to Eastern Wassa tomorrow to give effect to the said proposal.

The President also states that the Commandant of the Steamship "M.K." was lying at Elmina intending to commence the return voyage to Loah on Sunday (16th); that it was very desirable that the ship should remain stationed here in case there is any to assist & escort out our coast if necessary, as the steamer remains long on the coast because being pulled out for 6 months it was very specially low out of vitals <sup>with</sup> which she could not be provided here on the coast. The Member, one of opinion that it was better to see that the Colony of the reputation of the "M.K." was kept constant rather than long stay was only proposed that the Colony be so long; that the decision was to refer to the Commandant, as that it was very necessary for a steamship to be stationed here.

upon that a large no of men  
of Commodore's country along the  
both side of the river to the other  
side of the river which to prevent  
the Comany. He inwards of guards  
a the side assisted by several soldiers.  
- His intention is not strong enough to  
keep all the posts (4) posts (in some mts.)

Feb 14 The King's intention to send a party of the 60  
was in. The King's intention to send the reports  
he has sent him to South the Comany is which  
appears i.e. that of Commodore (Dinkirah) has been reinforced  
by men from Wessa Dinkirah: that he will to  
make an attack upon Comany, whereas he asks for  
reinforcement: that the Comandant of the Metelen  
Kruis will be asked not to depart as to  
anchor in the woods of Comany.  
The King wants to apply to the one or other  
after the end of the reinforcement: after  
what time the understanding says that the Shina  
will not march out to the assistance of Comany  
because then the faulps will come & lay  
waste Shina  
So it pertains what the King's King's

and the case of King's reply to the words  
of the King to the Lord

One of the present American states the country  
of France came here a fight with the  
Kings, but then the letter drew them away, he  
then they had friendships on land, whereas was  
there was in the land.

The King's answer says that the English of  
Cape Cod (sic) are ready to attack Florida. It  
is especially no longer a matter of power but a  
matter between the whites.

The King asks if they will help Canada or  
not. The reply says they fear the French  
because they are helping the people of Canada.

It was proposed to say more of making the both an  
hour is also to understand the matter.

An assumption of the making of understanding  
says that they will <sup>in</sup> help Canada but  
the King of England <sup>Hollanders</sup> must also assist.

To the colonial parties about they will do  
what Canada is attacked by the people of  
Canada they say they want to know first  
what the King will do.

Herewith deliver spoke in substance as follows:-

1668

" In this matter there is for us no English Point:  
 de Holt Court must conclude. The Par will  
 do this in the name of de Point & if  
 de King, Justice Court & his will not help  
 & were concluded then de Court will do this  
 close having de conscience to their dearest  
 his: that it is not true that this is done a  
 matter is done & matter of de whites, but that  
 it likewise concerns them, de Justice, & de  
 it concerns all de Cities finally with  
 de Parliament & that if they do not help their  
 friends & neighbors de Comyns they will  
 believe like cowards: that they will see  
 being broken after long & weak ego will do to  
 march out or was well displeas'd that they will  
 not do so then."

At the conclusion it was again asked what  
 they intended to do on the rest of the report  
 from Comyns.

The King stated that he had not said  
 that de Justice was to fight but that  
 he asked if they might set body to fight

The Court points out to them that we  
 in the Castle are safe enough but that if

Spain does not help us we shall not help  
Spain. who this is very & let it see then  
what ~~for~~ <sup>consequences</sup> the consequences of it

It was once more asked if the King  
would permit the money to march out when it  
shall be ready, or not.

Therefore the Burgomasters address the  
Brother of the King the result of which is that  
his grace is willing to march out if it shall  
be ready.

The Earl requests that him to charge the  
freeburgers to see into the port before & about  
to send some of them to training receiving it arms.

The latter King says that Portugal France  
Algeria Spain & Portugal have no powder  
& bullets & ask who supplies. The Earl says that  
Canon has been supplied our pieces will be also.  
The same was asked for or allowed for the King of  
Sicily or also for Spain if ready.

The Earl says that if it shall appear  
that Canon is insufficient and France Algeria  
cannot hold out against the Commons, they will  
then see a few King of the Commons to help them.

So what we require let it see they will

1868 all march out a plain when Shama are attacked by the Barbas.

Commander

In receiving the King's relative point of Shama came in again a purpose to send 3 persons to Commander to advise the people to submit to the Beck authority, after reflection, they had come to the conclusion that peaceful attempts <sup>might</sup> be made to be made in Africa the desired aim. Permission was given for this.

Feb 15. Melator Shama leaves the roads to proceed to Commander. 25 were left

In Guany to remain under command of Scott.

Wassa & Chama

Wass word a letter from Admiral of 25 pages with request to be informed that the council what the interests of Wassa are threaten to do of Chama. After long time the King's relative Scott that it, the Scott informed his English colleague that nothing is known that it have a dot the Commander of Chama has been asked for definite reports about it.

Commander

At night at 11-30 pm the King's relative point of Shama came in who report that the Scott

sent by him to Comendador God returned

Feb 16 At 12.30 midnight the King & whole Comendador  
go out case in for asks King to report  
result of the finding of the encampment to Cidala.

The King states that 10 messengers were sent  
there & reports the King to make report.

As all was not present there about were sent for.

Presumably one of them speaks & reports that on the  
first evening they saw 60-70 men who told  
them that the King of Comendador was at  
Hera. They could neither see nor asked the King  
why he refused to accept the full flag. Flag

affair that they will never see nor recognize it:

But the Hollanders could only see a flag  
will fight: that they had already always been  
under the English flag, but also 900 <sup>more</sup> English instead  
for that; that also the English had only to come  
→ they would also fight against them: they  
will give to us to the King of Dinnia  
if he will give them the English flag:

Commodore

this last remedy been under the British  
 flag & also the British over seven years,  
 they don't want the Dutch flag. Place  
 of Accra &c have taken the British  
 flag in place of the Holland; but they will not  
 have the Dutch: in place of the British.

The Gov asks the things what he thinks  
 of the state of affairs. He wishes that  
 if the interests of Commodore will not  
 have the Dutch flag the water then must only  
 remain so, for there are too many to go  
 & fight against them.

They are asked what they will do if  
 the Portugals attack Elmina. To this the  
 Portuguese replied very <sup>[calmly]</sup> serene, that the  
 interests of Commodore will not except the  
 Dutch flag, don't give out words to the  
 Minister of Colonies & if he says that they  
 must take the flag & so they must be fighting,  
 they will also fight.

The Gov asks what they will do if Commodore  
 is attacked. One of the British replied that they  
 have equipped <sup>with</sup> it to water & they know that  
 there is a powder shot by accident the name of the Gov.

The Earl replies that if Comans is attacked, he  
will go there, in conjunction with the people  
of Perpignan &c, marching out to help.

Therefore was first desired that the King  
& others should go & assist. The majority  
thereof saying that after quiet had been  
restored one of these persons said that some thing  
of the Perpetuators had said.

The Earl asks if they will stay quietly at home  
if Elmaria is attacked by de Fontaine. They  
reply that when they were all safe, he will not  
go to Comans.

The Earl says he holds them responsible for the  
perhaps very great damage consequences of Comans  
to its fate. He reminds them that they  
had previously promised something, & was not  
perhaps it can be far better, they draw back.

The King says he is willing to help he will  
not go out of Elmaria.

The Earl says he will not attend them to  
march out before the attack of de Fontaine as  
Comans takes place. The King says to let the  
followers of Comans rest until <sup>news</sup> comes from  
Holland.

A person present at the meeting states that  
a Chinese has been despatched, Kwoshe Yang says  
that this was done at the instigation of  
Hughes. The Chinese sent were to C.C.

to get set back the 4 weeks, when they were  
the Hughes sent a message to C.C. to say  
that they must not take these men: that  
he has promised the C.C. to drink petrol  
to take with Chinese.

The Gair proposes that the Chinese commission  
& Q's to work out. Kwoshe Yang says they  
will wait for reply to the correspondence letter  
to C.C. that they will fix it at day on which  
they will make the attack.

The Gair asks the message when they will  
march out & he will then want the Command of  
Chong & the Commander of the war ship who will  
help him & the Chinese do not seem willing to do so.

the various houses to return there. He will  
go & ask the king. He comes back  
with report that the king will be full with  
his friends about it in the afternoon.

The Earl asks why the various houses

as not jointly attack the enemy in the bush  
as they will be supported by the cavalry.

They replied that they intended this but  
they need the help of the Danians.

The Commander says that the Danians will  
not march out but that they will help them  
when the Fantags have been defeated.

The Ensign asks how far the salt <sup>works</sup> ~~pond~~ <sup>is</sup>

The proximity of the English territory found, caused  
wondering how time to time over the prospect  
as a body of decisions of territory not  
in general certain the which would like to  
appropriate countries if they were not together.

Albin Hunt did hope to settle because all

upon that a large no of men  
of Commodore's country along the  
both side of the river to the other  
side of the river which to prevent  
the Comany. He inwards of guards  
a the side assisted by several soldiers.  
→ His intention is not strong enough to  
keep all the posts (4) posts (in some mts.)

Feb 14 The King's intention to send a party of the 60  
men is. The King's intention to send the reports  
he has sent him to South the Comany is which  
appears i.e. that of Commodore (Dinkirah) has been reinforced  
by men from Wessa (Dinkirah): that he will to  
make an attack upon Comany, whereas he asks for  
reinforcement: that the Comandant of the British  
troops will be asked not to depart as to  
anchor in the woods of Comany.  
The King wants to apply to the one or other  
after the end of the reinforcement: after  
these are the understanding says that the Shina  
will not march out to the assistance of Comany  
because then the French will come & lay  
waste Shina  
So it appears what the King's King thinks

and the dose of King replies that the words  
of King to the Lord

one of the present American states that Canada  
the King came here a fight with the  
Kings, but that the letter drew them away, he  
then they had friendships on land, whereas was  
there was in the land.

The King says that the English of  
Cape Cod (sic) are ready to attack Florida. It  
is especially no longer a matter of power but a  
matter between the whites.

The King asks if they will help Canada or  
not. The reply that they fear the King  
because they are helping the people of Canada

It was proposed to say that the matter is both an  
issue in case to understand the matter.

An assumption of the making of understanding  
says that they will <sup>in</sup> help Canada but  
that the English <sup>Hollanders</sup> must also assist.

To the colonial position about they will do  
what Canada is attacked by the people of  
Canada they say they want to know first  
what the English will do.

Herewith deliver spoke in substance as follows:-

1668

" In this matter there is for us no English Point:  
 de Holt Court must conclude. The Par will  
 do this in the name of de Point & if  
 de King, Justice Court & his will not help  
 & were concluded then de Court will do this  
 close having de conscience to their dearest  
 his: that it is not true that this is done a  
 matter is done & matter of de whites, but that  
 it likewise concerns them, de Justice, & de  
 it concerns all de Cities finally with  
 de Parliament & that if they do not help their  
 friends & neighbors de Comyns they will  
 believe like cowards: that they will see  
 being broken after long & weak effort to  
 march out or was well displeas'd that they will  
 not do so then."

At the conclusion it was again asked what  
 they intended to do on the rest of the report  
 from Comyns.

The King stated that he had not said  
 that de Justice was to fight but that  
 he asked if they might set body to fight

The Court points out to them that we  
 in the Castle are safe enough but that if

Spain does not help us we shall not help  
Spain. who this is very & let it see then  
what ~~for~~ <sup>consequences</sup> the consequences of it

It was once more asked if the King  
would permit the money to stand out when it  
shall be sent, or not.

Therefore the Burgomasters address the  
Brother of the King the result of which is that  
his grace is willing to stand out if it shall  
be sent.

The Earl requests that him to charge the  
freeburgers to see into the port before & about  
to send some of them to training receiving it arms.

The latter King says that Portugal France  
Algeria Armenia & the Indies have no powder  
& bullets & ask who supplies. The Earl says that  
Canon has been supplied our pieces will be also.  
The same was asked for or allowed by the King of  
Sicily or also for Spain if very.

The Earl says that if it shall appear  
that Canon is insufficient and Drone Algeria  
cannot hold out against the Cannons, they will  
then see a few King of the assistance to help them.

So what we require let it see they will

1868 all march out a plain when Shama are attacked by the Barbas.

Commander

In receiving the King's relative point of Shama came in again a purpose to send 3 persons to Commander to advise the people to submit to the Beck authority, after reflection, they had come to the conclusion that peaceful attempts <sup>might</sup> be made to be made in Africa the desired aim. Permission was given for this.

Feb 15. Melator Shama leaves the roads to proceed to Commander. 25 were left

In Guany to remain under command of Scott.

Wassa & Chama

Wass word a letter from Admiral of 25 pages with request to be informed that the Commander what the wholes of Wassa are directed to do of Chama. After long time the King's relative Scott that it, the Scott informed his English colleague that nothing is known that it have a dot the Commander of Chama has been asked for definite reports about it.

Commander

At night at 11-30 pm the King's relative point of Shama came in who report that the Scott

sent by him to Comendador God returned

At 2.30 am emissaries of Dinnia reports  
bring a letter from the Comendador of the  
Meklan King some days hence some commands  
detachment at Comandary.

Feb 16 At 12.30 midnight the King & other Comendador  
go out case in for asks King to report  
result of the finding of the encampment to Cidala.

The King states that 10 messengers were sent  
there & reports the King to make report.

As all were not present those absent were sent for.

Presumably one of them speaks & reports that on the  
first evening they saw 60-70 men who told  
them that the King of Comendador was at  
Hara. They could neither see nor asked the King  
why he refused to accept the full flag. Flag

affair that they will never see nor recognize it:

But the Hollanders cannot deny that they will fight: that they had already been under the English flag, but also no longer <sup>more</sup> invited to do so; that also the English had only to come & they would also fight against them: they will give 4 or 5 to the King of Dinnia & he will give them the English flag:

1868

Commodore

the East Company, been under the British  
 flag & also the British overgrown them,  
 they don't want the Dutch flag. Place  
 of Accra &c. have taken the British  
 flag in place of the Holland; but they will not  
 have the Dutch: in place of the British.

The East asks the things what he thinks  
 of the state of affairs. He wishes that  
 if the interests of Commodore will not  
 have the Dutch flag the water then must only  
 remain so, for there are too many to go  
 & fight against them.

They are asked what they will do if  
 the Portugals attack Elmina. To this the  
 Portuguese replied very <sup>[calmly]</sup> serene, that the  
 interests of Commodore will not except the  
 Dutch flag, don't the East want advice to the  
 Minister of Colonies & if he says that they  
 must take the flag & so they want to fight,  
 they will also fight.

The East asks what they will do if Commodore  
 is attacked. One of the British replied that they  
 have equipped <sup>with</sup> it to water & they know that  
 there is a powder shot by accident the name of the East.

The Earl replies that if Comans is attacked, he  
will go there, in conjunction with the people  
of Perpignan &c, marching out to help.

Therefore was first desired that the King  
& certain gentlemen should go & counsel the merchants  
towards selling & after quiet had been  
restored one of these persons said that some thing  
& de Perpignan had said.

The Earl asks if they will stay quietly at home  
if Elmaria is attacked & de Perpignan. They  
reply that when they will see like, he will not  
go to Comans.

The Earl says he holds them responsible for the  
perhaps very great damage consequences of Comans  
to its fate he reminds them that they  
had previously promised something, & was not  
perhaps it can be put there, they draw back.

The King says he is willing to help he will  
not go out of Elmaria.

The Earl says he will not attend them to  
march out before the attack of de Perpignan as  
Comans takes place. The King says to let the

2 reply shall come to the letter which de Gair is  
expected to send to de Gair.

The proposal of de Gair to write to the  
Commander of Chong to attack ourselves has not  
been, first sent appl.

A person present at the meeting states that  
a Chinese has been despatched, Kwoshe Yangyang  
says that this was done at the instigation of  
Hughes. The Chinese sent were to C.C.

to get set back the 4 weeks, when they were  
the Hughes sent a message to C.C. to say  
that they must not take these men: that  
he has promised the C.C. to drink petrol  
to take with Chinese.

The Gair proposes that the Chinese commission  
2 Q's to work out. Kwoshe Yangyang says they  
will wait for reply to the correspondence letter  
to C.C. that they will fix it at day on which  
they will make the attack.

The Gair asks the message when they will  
march out, he will then want the Command of  
Chong & the Command of the war ship who will  
help him & the Chinese do not seem willing to do so.  
One of the <sup>quarters</sup> says they will go back & bring

de Thomson, & Commander of Hurdell leave. Thereupon arose  
some discussion which however seems to have led to no  
practical result. On the side of the Chinias was some objection  
of the landing over of the 4 messrs kept prisoner. The  
messrs wish for more table furniture before the release of  
prisoners finally after <sup>long</sup> discussion the messrs  
ask whether the Chinias will be allowed to remain

to return to his people during their absence the Emir  
also understands the unwillingness of expenses used by him  
for the two hundred men of Elmias to be fratry  
of the four states. For they must remain quiet for at least 2  
days more; for the well will be to the Emir's content. For  
the 3000 men with the meeting of the Sultan's army and  
the camp are beyond all words and fear.

July 13 The unwillingness was in vain with some protest  
to the Emir that of his former Elmias has been  
caused to the Emir's <sup>to the Emir</sup> <sup>to the Emir</sup> a letter written to the Emir to the King  
to be with a list of persons killed and made prisoners, & an  
act of losses suffered & expenses incurred.

July 14 The unwillingness was in vain with some protest  
of the Emir informs them of the reply from the  
Emir's answer; that he has been deceived by the fratry  
for they desire no peace; that they wish to remain  
quiet can be the Emir's power & die ready to  
hand. Goods of the Emir let 200000 must be  
ordered. The Emir asks them what they propose  
to do. The reply they will consist with all Sultan's  
power & bring reply tomorrow.

July 15 The King & his whole party of Elmias  
come into the castle & ask the Emir for  
some financial assistance as he needs for
